Introduction

Give your brand the web presence it deserves with the number #1 Odoo theme in the market: Theme Scita. One of the most elegant themes which are developed keeping all industries in mind. We've designed this theme considering e-commerce, healthcare, fashion, finance, and many more industries. It is perfect for every business. Designing your website has never been this easy with our theme Scita.

Benefits of Odoo Theme Scita

- Helps in ranking your business higher with faster page loading speed.
- Theme Scita includes a powerful mega menu, drag-and-drop snippets, elegant header footer options, and more.
- It is well-coded, organized, and modular to help you get the aspired look for your website.

Pre-requisites

- Following points must be followed before starting the plug-in installation:
- You should log in as an Admin in Odoo.
- Check that your Odoo Instance is compatible with Scita Theme.
- An e-commerce module should be present in your instance to use this theme.

Installation

Installation Steps

- Download the latest Odoo version. Go to the website record and install Theme Scita from there.
- Download **Theme Scita** from the ‘Odoo store’. Once downloaded, you will get a folder with the name ‘theme_scita’.

- You need to add this folder in your addons directory and restart the Odoo server instance and update your App List. Now go to **WEBSITE -> Edit -> Theme**.
- In website settings, select a website in which you want ‘Theme Scita’ to be installed.
- Click on the ‘Switch a Theme’ button. On clicking, you will get redirected to a list of themes available.
- Click on **Theme Scita** to install it on your website.
- After selection, click on the **Save** button to save the changes.
- After installation, you can see theme details under the ‘Website’ section.

Database neutralized for testing: no emails sent, etc.

Website View in cart page

The screenshot shows a shopping cart page with three items:

- Custom iPhone 15 Pro Case: \$60.00
- Custom Tablet Packaging Box: \$48.00
- iPad: \$17.00

Below the items is a red-bordered box containing a 10% discount offer:

10% on your order 1 \$ -28.90 View

- also claim on product
- when you click on claim get the free product

The screenshot shows an 'Order overview' page with several items listed:

- Apple Watch SE
- Custom Phone
- Custom Laptop Bag
- Home Kitchen Mug - Custom Text

For the 'Home Kitchen Mug - Custom Text' item, there is a red-bordered button labeled 'Free Product - Camera' with a 'View' button next to it.

The screenshot shows a shopping cart page with four items:

- Home Kitchen Mug - Custom Text: \$29.99
- Custom iPhone 15 Pro Case: \$60.00
- Custom Tablet Packaging Box: \$48.00
- iPad: \$17.00

Below the items is a red-bordered box containing a free product offer:

Free Product - Camera (Sony) 1 \$ 0.00 View

Bulk Buying Product

- Click on the Home Menu -> Sales -> products -> Pricelists.
- click on new add price list name. after configuration on price rule and apply product quantity and price. save and check in website

The screenshot shows the SCITA software's navigation bar with tabs: Sales, Orders, To Invoice, Products, Reporting, and Configuration. Below the navigation bar, there are three main sections: 'Number' (with dropdowns for 'Customer' and 'Supplier'), 'Products' (with sub-options: Product Variants, Pricelists, Discount & Loyalty, and Gift cards & eWallet), and 'Quotations' (with dropdowns for 'Customer' and 'Supplier'). The 'Pricelists' option is highlighted with a grey background.

The screenshot shows the 'ipad' product page. It displays a table of price rules applied to the product. The columns include 'Apply on', 'Price', 'Min. Quantity', 'Start Date', and 'End Date'. There are three entries in the table:

Apply on	Price	Min. Quantity	Start Date	End Date
ipad	\$100	700		
ipad	\$100.00	100		
ipad	\$100.00	100		

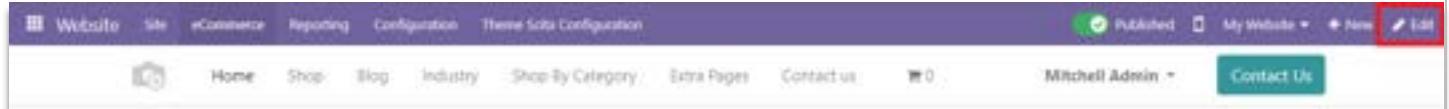

Website View in cart page

The screenshot shows the product details for an iPad on the SCITA website. The top navigation bar includes links for All Drop Order Results, Standard Shipping, Home, All Products, Shop, Shop By Category, Categories, Blog, Extra Pages, and Contact us. The main content area features two images of an iPad: one showing the front screen and another showing the back. To the right, the product title 'ipad' is displayed with a star rating of 5 stars. A red box highlights a promotional section with the text 'Big savings with bulk buys!' and three buttons: 'Buy 1 at \$12.00 / unit', 'Buy 5 at \$10.00 / unit', and 'Buy 10 at \$8.00 / unit'. Below this, the price '\$ 17.00' is shown, followed by a quantity selector (minus, 1, plus) and a 'Add to Cart' button. At the bottom, there are links for 'Add to wishlist' and 'Compare', and fields for 'Deliver To:' and 'Zip Code' with a 'Check' button.

Theme Configuration

Customize Theme

- After Installing the theme, go to **Website** and click on ' Edit' which is on the right side of the page.

- After clicking on ' Edit', it will open pop up box with different 3 **tabs** to set/change the themestyles:
 - Blocks
 - Customize
 - Theme
- From the available options, set the option which suits best for the website.

Blocks

- You will get the snippet list of the “Theme Scita” drop-down option under the “Blocks” tab.

Customize

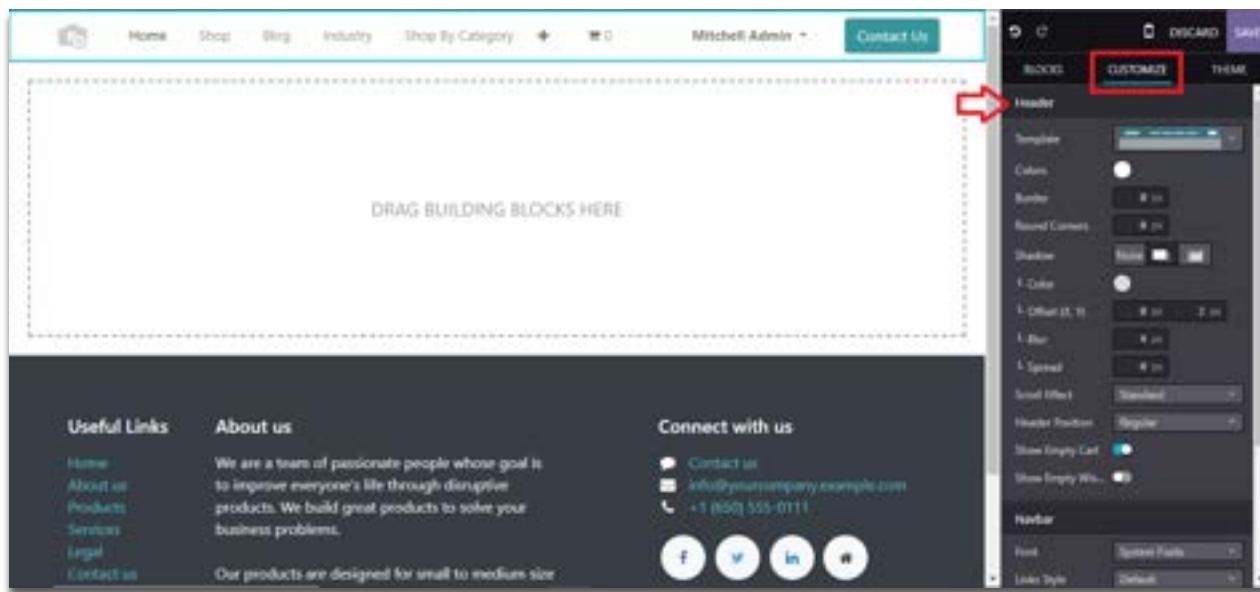

- You can customize the website ‘Header’ & ‘Footer’ under the “Customize” tab.

Theme

- You can customize the ‘Theme color’ and its options like ‘templates’, ‘fonts’, ‘buttons’, etc. under the “Theme” tab.

Header/Footer Configurations

- You can customize and configure the header section by ‘double-clicking’ on it. Once you double-click on the header section, the **Customize** tab will be enabled from where you can configure and customize the options of the header section.

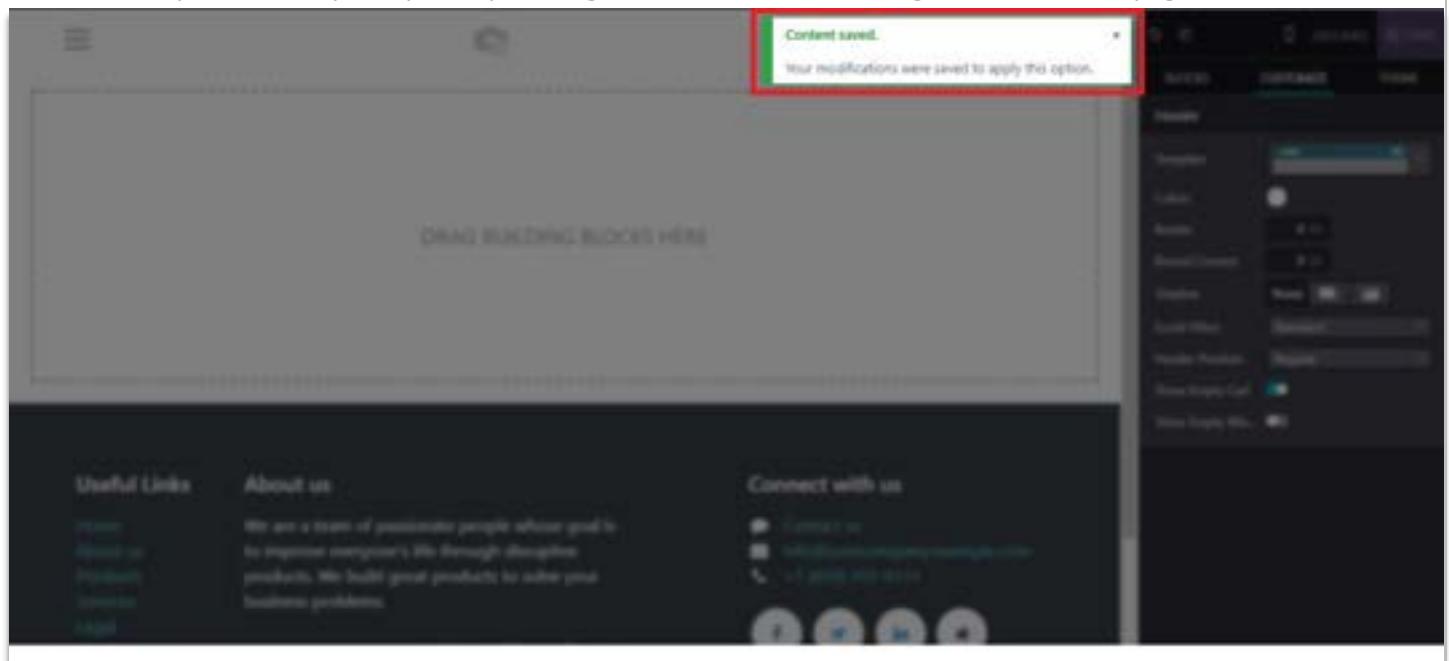

Header Customize Configuration

- Under the “Customize” tab, you can select the Theme Scita template for the Header.
- Clicking on the Template option, it will show different header styles to choose from.
- Mainly there are different header templates available in the theme Scita.
- Select the template that works best for your website structure.
- You can customize the header as per their requirement.
- After selecting any option, you will get the ‘preview’ as per the selection. By clicking on Save (top-right corner), the website changes will be done.

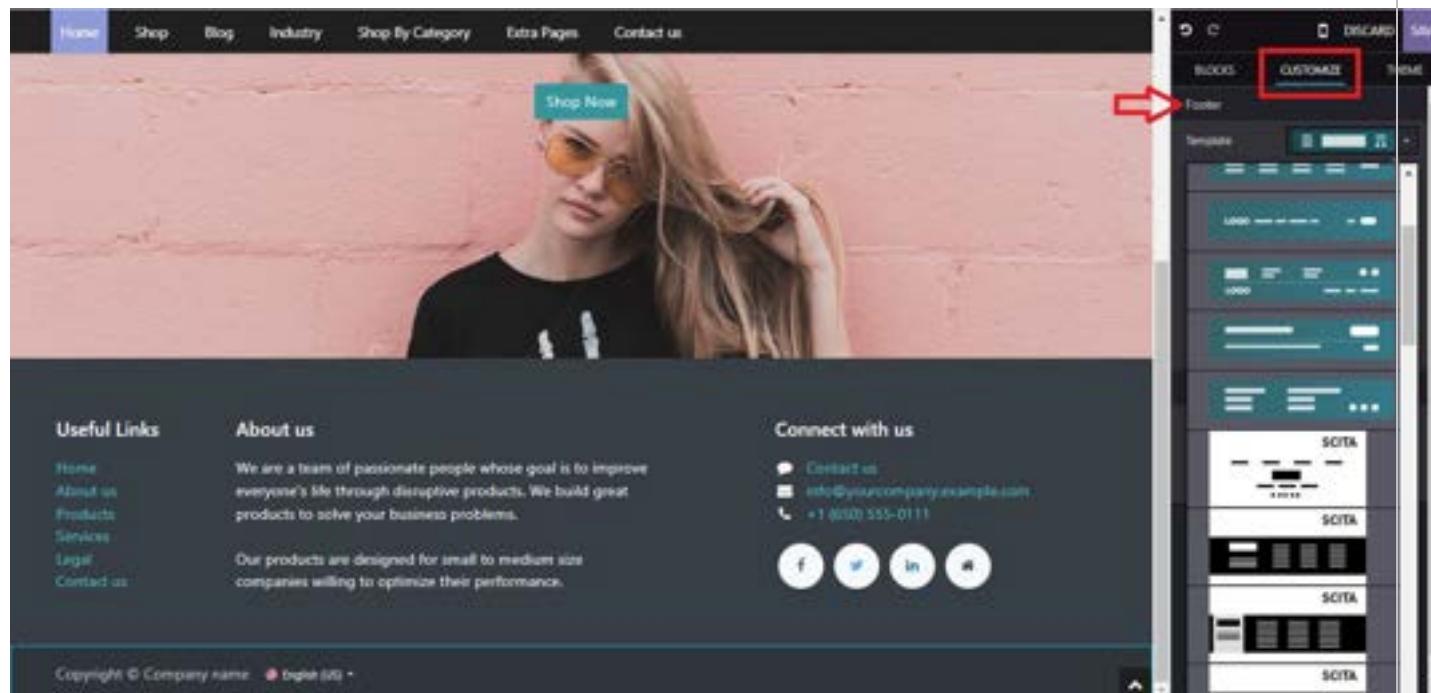

- When you select any ‘template’, you will get the confirmation message to load the webpage.

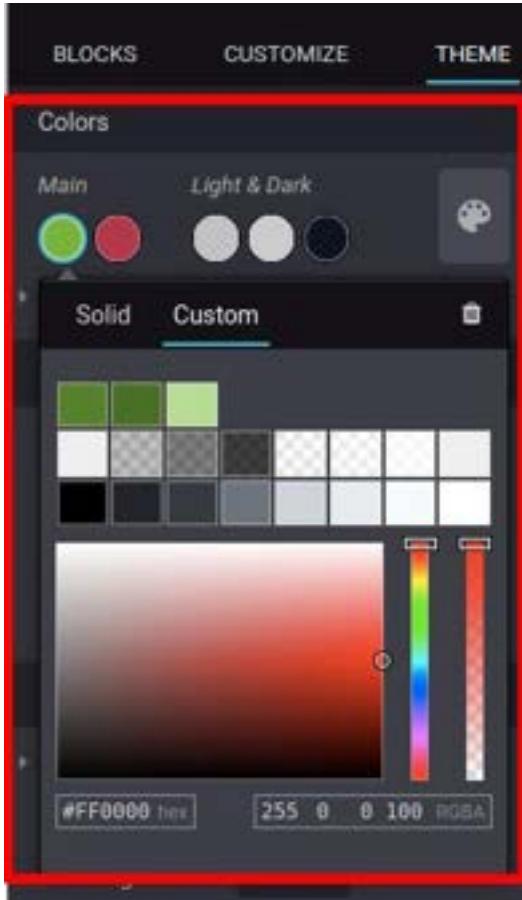

Footer Customize Configuration

- You can configure the footer by selecting the **Footer template** of “Theme Scita”. You can customize the Footer options as per your website appearance. Once you select any template, it will ask for a confirmation message to reload the page as per the changes you made.

Theme & Page Layout customization

- You can customize the Theme options and Page layout of your industry-specific website (store).

Theme Colors

- Under 'Theme Colors', you can choose any color for your website appearance. By clicking on the 'colors' icon, it will show a color picker and in that color picker you can see the two tabs solid and custom which are seen in the below screenshot. We can apply primary as well as secondary color for theme itself.
- Once you choose any color, it will ask for a confirmation message to reload the webpage as per the changes and save the changes.

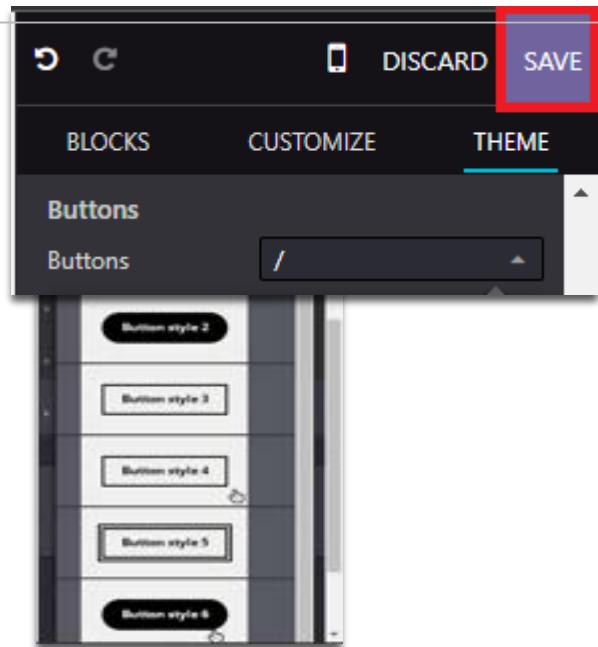

Theme Options

Page Layout

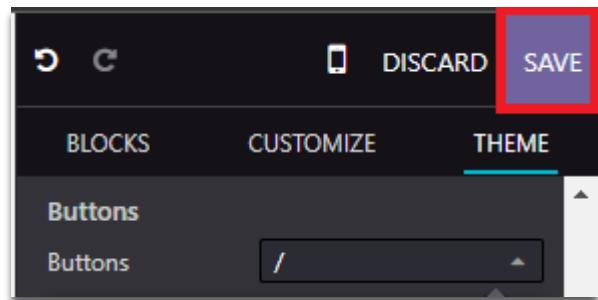

can select the **Background Image or Pattern** for your

Theme Options → Buttons

- Click on the Buttons drop-down option, it will show different button styles to select from.
- Mainly there are 8 different button styles available. Select the style that suits best for the website.
- By selecting any button style, you will get the confirmation message to reload the webpage for preview.

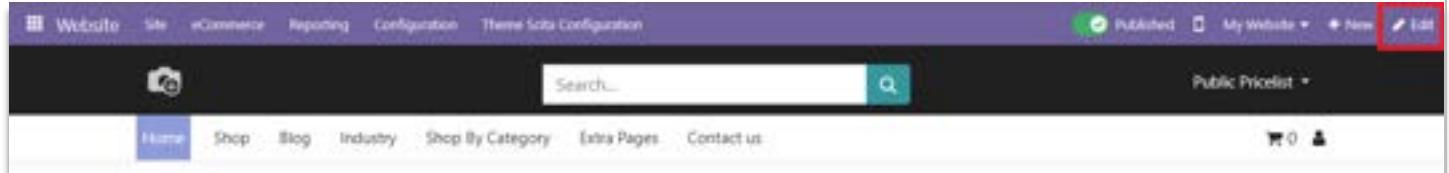

- You can set the Odoo default options like padding inputs & Website Settings.
- Once you customize the Header/Footer, Page Layout, and Theme options, click on the “Save” button to save the modifications.
- Now, you can add the “Snippets” of the **Theme Scita** to design the industry-specific website (Store).

How to add Snippets?

- Now, after theme customization, add the **Snippets** according to the website structure.
- To add Snippets, go to **Website** and click on the **Edit** button that is available in the top right corner.

- Clicking on the **Edit** button, a window on the left side with the name "Theme Scita" will appear.

- You will find the **Snippets** drop-down option under the "Theme Scita" heading from where you can select a Snippet and drag and drop the snippet that you want to set on your website page.

About Us Snippets

- Accordion Snippets
- Banner Snippets
- Blog Snippets
- Brand Snippets
- Content Snippets
- Client Snippets
- Category Snippets
- Case Study Snippets
- Contact Us Snippets

- HTML Snippet Builder
- Multi Product Snippets
- Newsletter Snippets
- Our Team Snippets
- Portfolio Snippets
- Promotion Snippets
- Pricing Snippets

- You will get the ‘alphabetical’ list of Snippets.
- Select the required **Snippet** from the drop-down list.

- After selecting any Snippet, you will get its variants that you can place on the page simply dragging and dropping.

The screenshot shows a web-based content editor interface. On the left, there's a sidebar titled "BLOCKS" containing a list of snippets with small thumbnail previews. A red arrow points from the text "As you drag and drop a Snippet, you will get a preview of the Snippet." to the sidebar area. The main workspace has a placeholder text "DRAG BUILDING BLOCKS HERE". At the bottom, there are sections for "Useful Links" and "About us", and a "Connect with us" social media section.

- As you drag and drop a Snippet, you will get a preview of the Snippet.

- You can edit the content of the Snippet. When you select the snippet, the snippet-related options will be enabled under the “Customize” tab.

The screenshot shows a web editor interface with the following details:

- Page Title:** About Us
- Content Area:**
 - A block of placeholder text (Lorem ipsum) is present.
 - A heading "Complete control over your company." is followed by a block of descriptive text.
 - A "Read More" button is visible.
- Customization Sidebar:**
 - Tabs:** BLOCKS, CUSTOMIZE (highlighted in red), THEME.
 - Page Options:** Includes "Scroll To Top" toggle.
 - About Us Snippet 1:** Settings include "Grid: Col 3", "Background: Cover", "Image: None", "Width: 1000px (Original)", "Quality: 100%", "Position: None", "Filter: None", "Color Filter: None", "Content Width: 100%", "Height: Auto", "Visibility: No condition applied".
 - Layout:** Grid: Col 3.
 - Background:** Type: Cover, Color: None.
 - Image:** Filter: None, Width: 1000px (Original), Quality: 100%, Position: None, Filter: None, Color Filter: None.
 - Position:** None.
 - Filter:** None.
 - Width:** 1000px (Original).
 - Quality:** 100%.
 - Position:** None.
 - Filter:** None.
 - Color Filter:** None.
 - Content Width:** 100%.
 - Height:** Auto.
 - Visibility:** No condition applied.
 - Column:** Grid: Col 3.

- Once all required snippets are placed and edited, click on the Save button to save the changes made to the web page.
- You can customize and edit the Snippet as per your requirement or website structure.

Theme Scita: List of Snippets

'About Us' Snippet

- For 'About Us', you will find different options.

The screenshot shows the Theme Scita interface. On the left, there's a large central area labeled 'DRAG BUILDING BLOCKS HERE' with a dashed border. To the right of this is a sidebar titled '5 Theme Scita' containing a grid of six snippets, each labeled 'About Us Snippet 1' through 'About Us Snippet 6'. At the bottom of the sidebar, there are tabs for 'BLOCKS', 'CUSTOMIZE', and 'THEME'. A red arrow points from the top right towards the sidebar. Below the sidebar, there are sections for 'Structure' and three preview thumbnails: 'Banner', 'Cover', and 'Text - Image'.

- Drag and drop any of the 6 snippets on the page where you want them.
- By selecting Snippet, you can customize the style elements like the Set No. of columns, Background, color, etc. and apply the text format from the 'Customize' tab.
- You can Move, Duplicate and Delete the snippet. You can also resize the snippet as per your need.

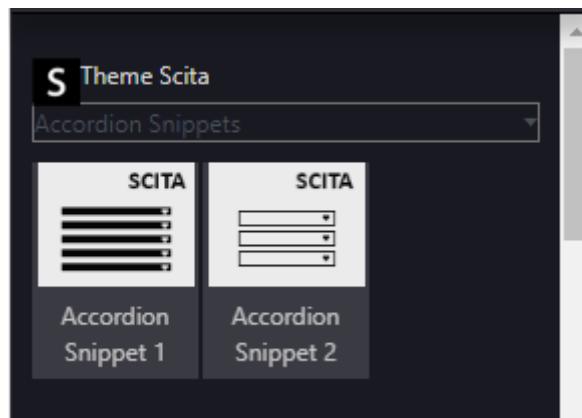

The screenshot shows the Theme Scita interface with a different page layout. On the left, there's a large image of medical professionals performing surgery. To the right of the image, the page title is 'About Healthcare' with a green heart rate line icon. Below the title is some descriptive text about medical services. At the bottom of this section is a green 'Read More' button. To the right of the main content is a sidebar titled 'About Us Snippet 2' with several customization options. These include 'Layout' (set to 2 columns), 'Background' (a light blue gradient), 'Content Width' (set to 100%), 'Height' (set to Auto at 50%), and 'Visibility' (set to 'Visible'). A red box highlights the 'CUSTOMIZE' tab in the sidebar. Below these settings are sections for 'Inline Text' (with a rich text editor) and 'Image' (with options for file selection).

- You can customize every block of the snippet. You can change the image by clicking on the image that you want to change or remove. Along with the image, you can also add Text, Document, Pictogram, and Video to the snippet.
- You can edit the text caption, color, button's color, and button effects by double-clicking on them.

- When you select the ‘Snippet’, the snippet-related options will appear under the “Customize” tab. Here you will find the name of the selected Snippet as a header.
- You can ‘duplicate’ the container or block of the snippet by clicking on the Duplicate (copy) icon and ‘delete’ the Snippet by clicking on the Delete icon.

Adding an ‘Accordion’ Snippet

- There are **two** variants for the ‘Accordion’ snippet.

- Drag and drop any of the 2 snippets on the page.

Frequently Ask Question

Does hudly work with car?

Lorem Ipsum is simply dummy text of the printing and typesetting industry.

Does hudly work with my phone?

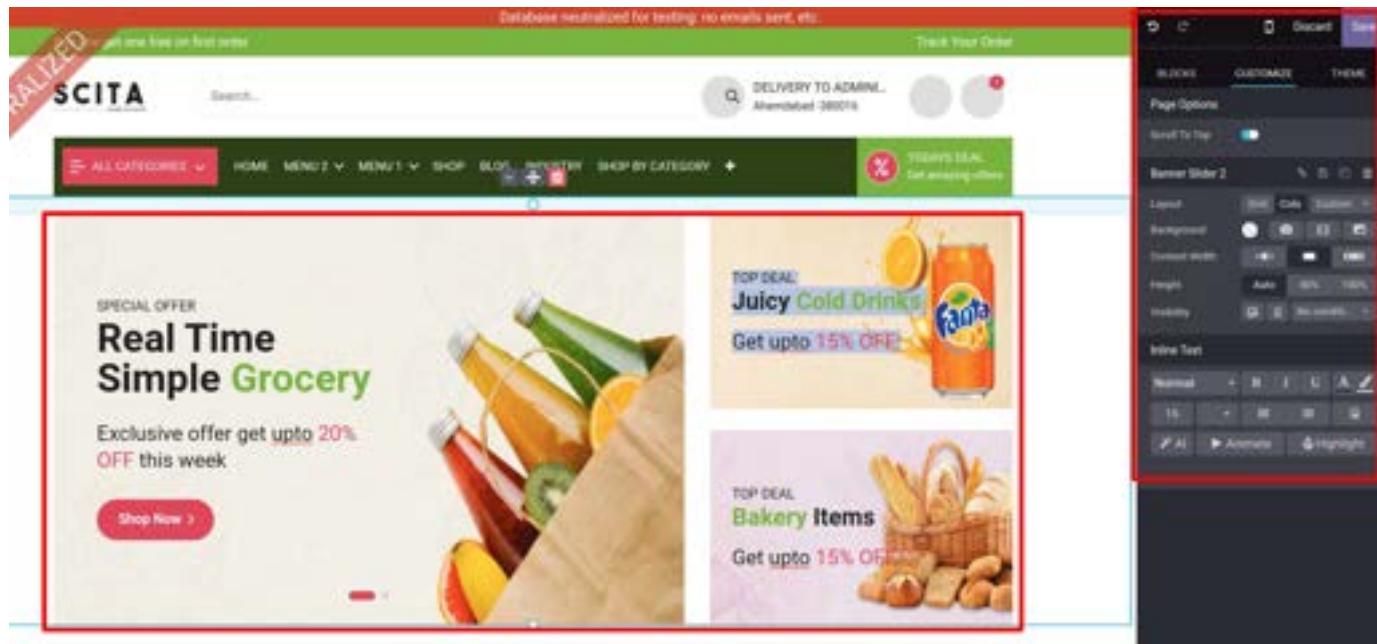

Lorem Ipsum is simply dummy text.

- After selecting the accordion snippet, you can easily customize the elements like text.

Adding 'Banner Type' Snippet

- There are different snippets for 'Banner Type' along with a video banner, Drag and drop any of the 11 snippets.
- By selecting Snippet, you can customize the style elements: Set No. of columns, Background, its Color, etc. and apply the text format from the 'Customize' tab.

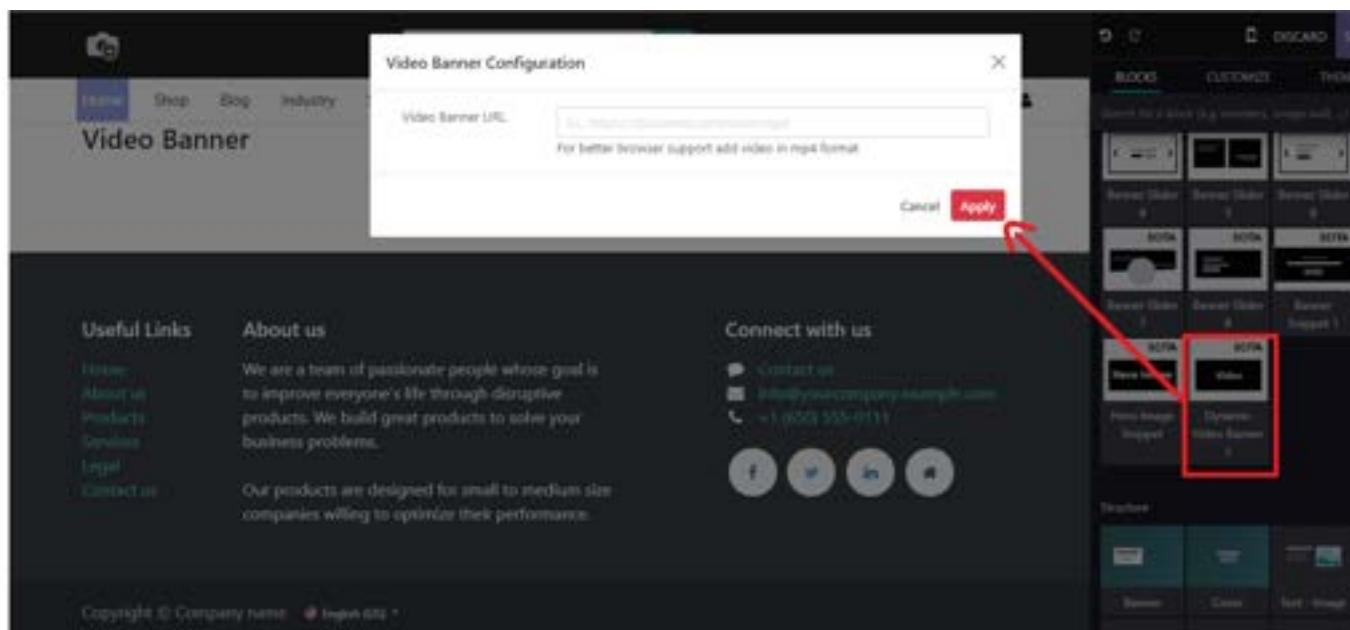

Banner Snippet

- You can apply the slide effects, and speed and add more slides with the description and images.
- You can also edit the text on the button, its background color, and the style of a button by double-clicking on it.

Video Banner Snippet

- You can also display the **Video Banner** under 'Banner Snippet' in Theme Scita.

- By dragging & drop Dynamic Video Banner 1, a popup will appear named Video Banner Configuration.
- Insert the Video URL and Mp4 format will be preferable for better browser support.
- After inserting Video Banner URL, click on Apply button and Save the website changes.

Website View

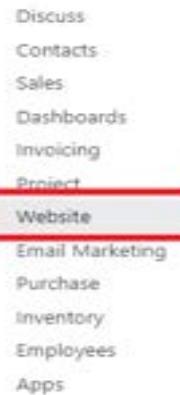

- Banner video will automatically be played when your customer browses your store.

'Blog' Snippet

Back End Configuration

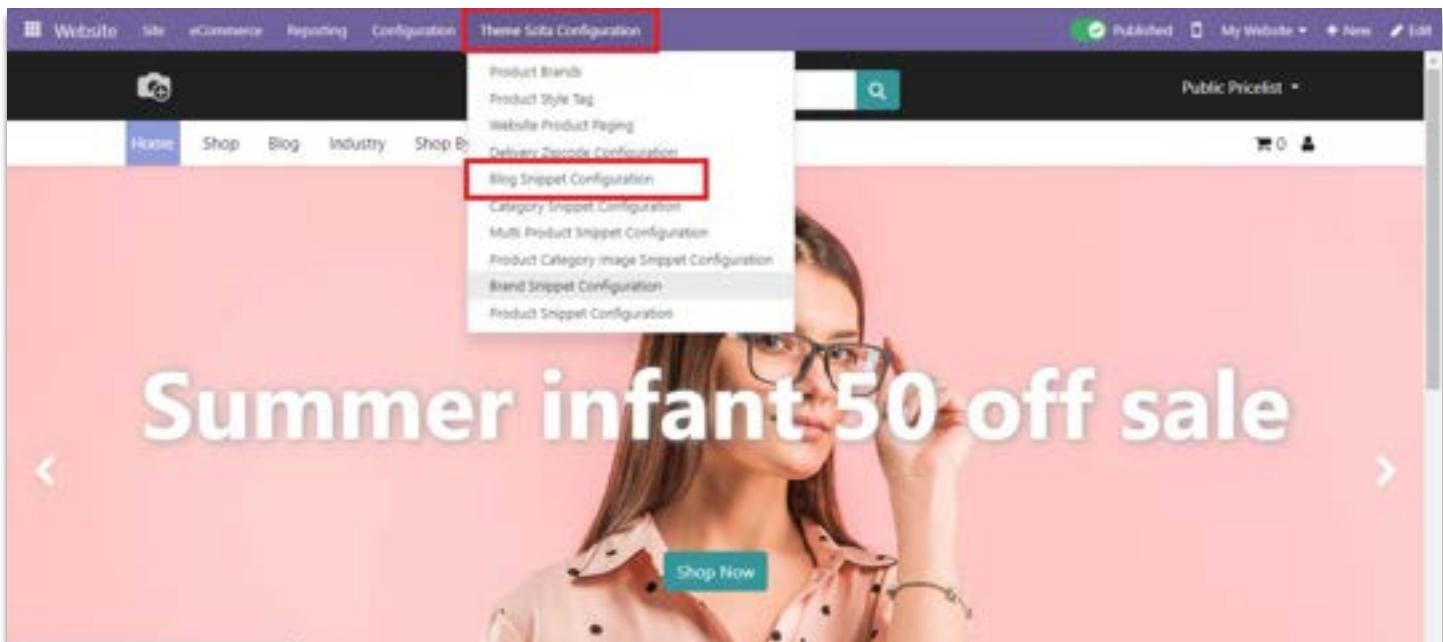

- To use this snippet, first you need to configure the same from the backend admin section.
- For that, go to WEBSITE Website.
- By clicking on Website, you will find the dashboard with the header menu section.
- To configure the Blog snippet, first, you must insert a Blog post with its Category and Tags if required.

- To create a Blog post, click on **Blogs** from the header Menu and create a Blog with the required details.

Note: Once the blog is created you should 'publish' it on the website.

- Now, go to **Theme Scita Configuration** → **Blog Slider Configuration** to configure the **Blog snippet**.

- From here, you can insert a 'Blog Slider' which you will need to select during Blog snippet drag & drop.

- Now, create a new **Blog Slider** by inserting the required details and selecting the **Blog Post** from the 'Collections of Blog posts dropdown list.

The screenshot shows the 'Blog Snippet Configuration / New' screen in Odoo. The configuration fields include:

- Slider name:** Blog
- Slider sub title:** Lorem ipsum is simply dummy text of the printing and typesetting industry.
- Active:**
- Auto Rotate Slider:**
- Slider sliding speed:** 1.000
- Collections of blog posts:** A dropdown menu listing several blog post titles: Beyond The Eye, Buying A Telescope, What If They Let You Run The Hubble, How To Look Up, How to choose the right hotel, Maui helicopter tours, Sierra Tarahumara, and Start flying. The 'Start flying.' option is currently selected.

Note: You will get only those Blog posts from the drop-down list which are published and live.

- Now, you can use this snippet by switching to the website.
- Go to Website -> Click on the Edit button available in the top right corner. By clicking on that, a snippet panel shows on the left side of the window.

Website view (Front End view)

The website front end displays the 'Latest Insights' section with four blog post cards:

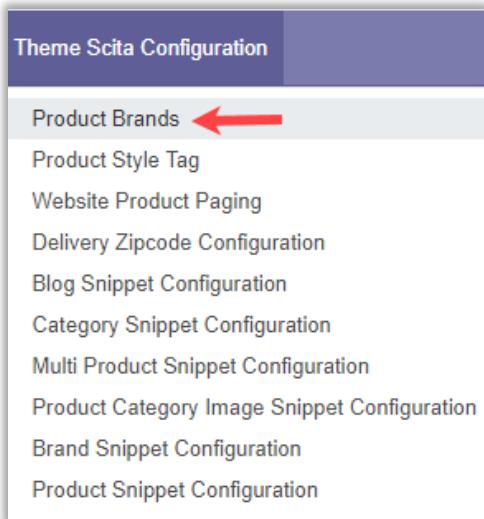

- Beyond The Eye** (Thumbnail: Camera) - Published on April 29, 2025, by Mitchell Admin.
- Buying A Telescope** (Thumbnail: Telescopes and accessories) - Published on April 29, 2025, by Mitchell Admin.
- What if They Let You Run The...** (Thumbnail: Astronauts) - Published on April 29, 2025, by Mitchell Admin.
- How To Look Up** (Thumbnail: Laptop and telescope) - Published on April 29, 2025, by Mitchell Admin.

A 'View More >' button is located at the bottom of the slider.

Configure 'Brands'

Backend Configuration

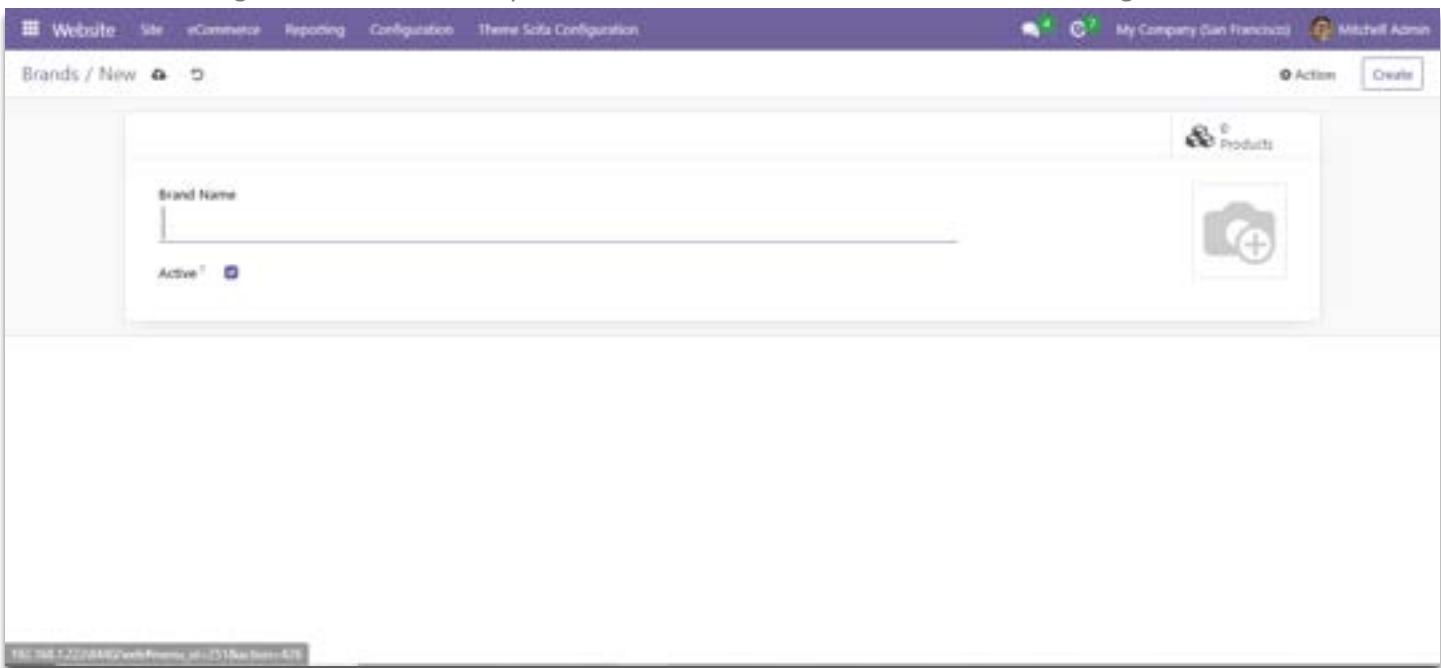

- For brands, first you must configure 'Product Brands' in the backend.

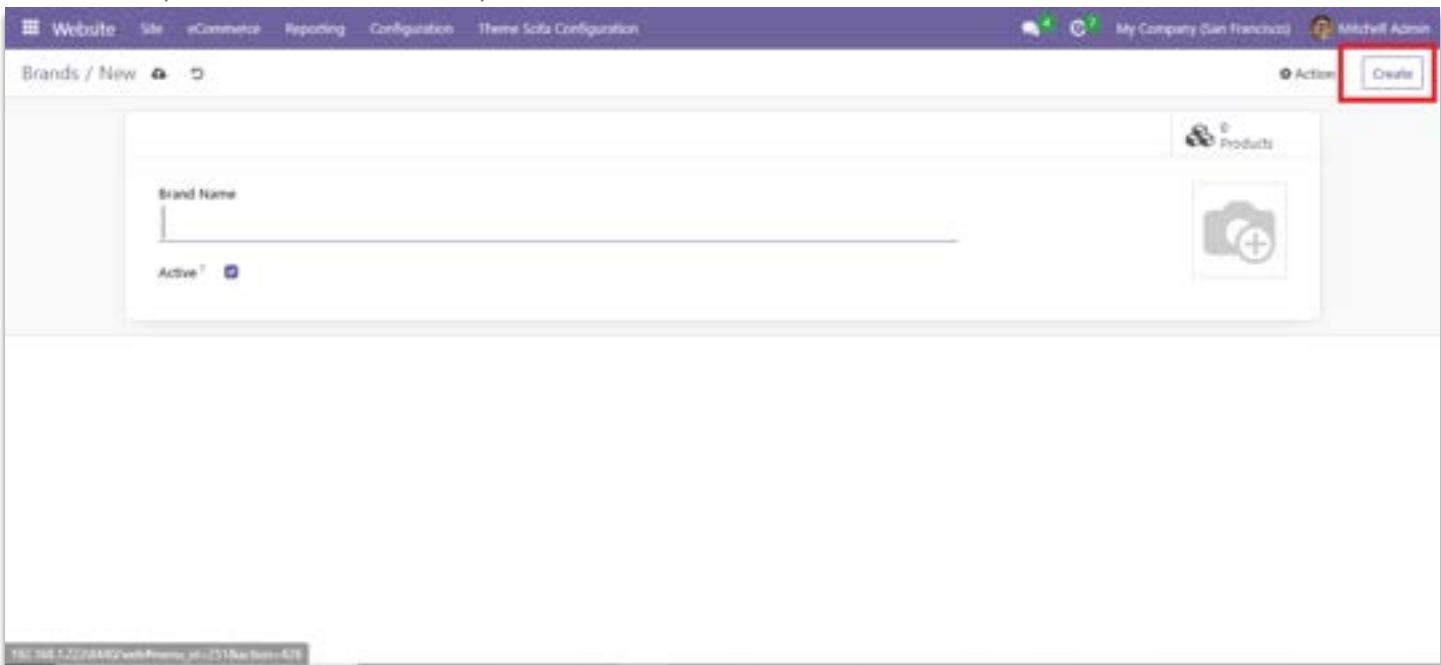

- For that, go to WEBSITE Menu → Website → ThemeScita Configurations → Product Brands.
- By clicking on **Product Brands**, you will find the list of Product Brands.
- You can 'edit' the existing brand or 'create' a new Brand.

A screenshot of the 'Brands' configuration page. The top navigation bar includes 'Website', 'Site', 'eCommerce', 'Reporting', 'Configurations', and 'Theme Scita Configuration'. The main area is titled 'Brands' and features a large 'CREATE' button (highlighted with a red box). Below the button is a placeholder icon and the text 'No data to display'. A message at the bottom encourages users to 'Try to add some records, or make sure that there is no active filter in the search bar.'

- After clicking on the create button you will be able to enter the name and insert the logo.

- Once you enter the details then you need to click on the create button.

- You will see the existing brands on the displays as seen in the below screenshot.

The screenshot shows the 'Brands' section of the Odoo interface. At the top left is a 'CREATE' button. The main area displays three brand cards: 'Puma Product' with its logo, 'Nike Product' with its swoosh logo, and 'Adidas Product' with its three stripes logo. Each card has a small trash can icon at the bottom right. At the top right of the screen are search, filter, group by, and favorite icons. The top navigation bar includes 'Brands', 'CREATE', 'Filters', 'Group By', 'Favorites', and page numbers '1-1 / 3'.

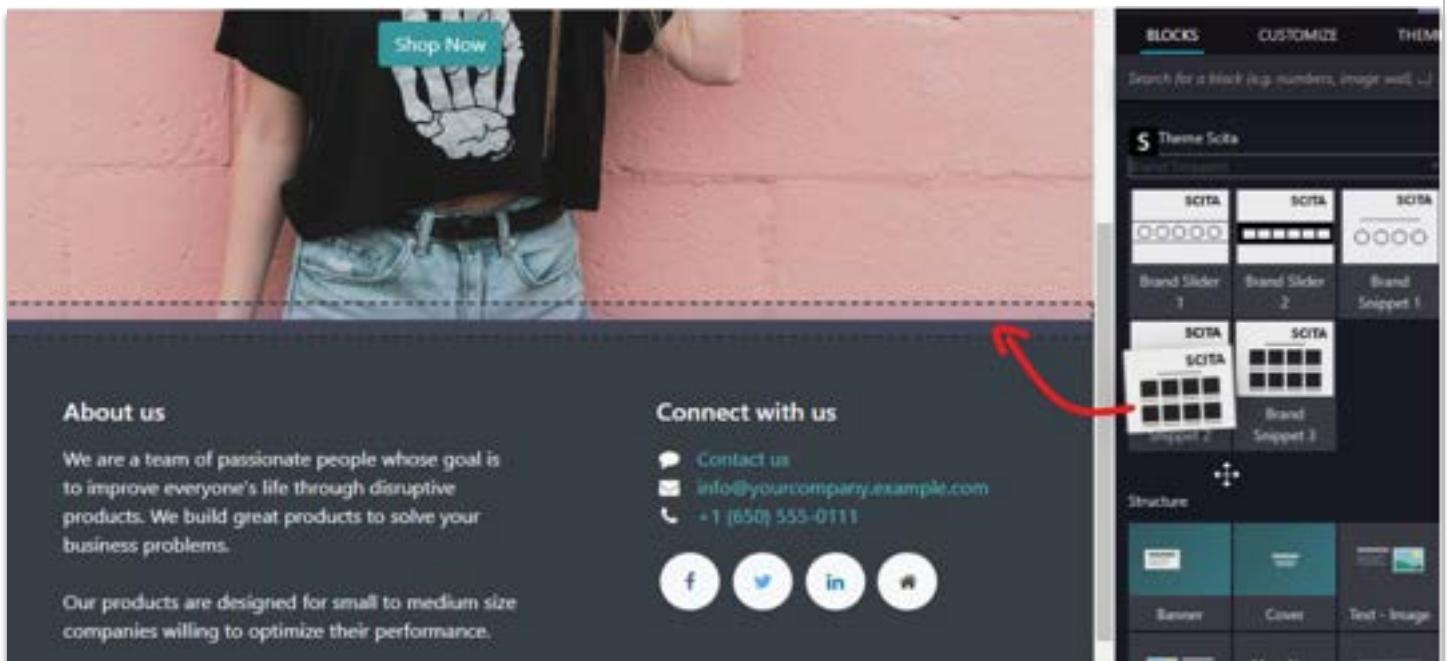

- You can manage the 'Collection of Brands' from the **Brand Snippet Configuration** under the **Theme Scita Configuration** menu.

The screenshot shows the 'Brand Configuration / New' form under the 'Theme Scita Configuration' menu. The top navigation bar includes 'Website', 'Site', 'eCommerce', 'Reporting', 'Configuration', 'Theme Scita Configuration', 'My Company (San Francisco)', and 'Mitchell Adams'. The form fields include 'Name' (Trending brand), 'Active' (checkbox checked), and 'Collections of Brand' (a dropdown menu containing 'Puma', 'Nike', and 'Adidas'). A red arrow points to the 'Collections of Brand' dropdown. At the bottom right of the form are 'Action' and 'Create' buttons.

- From the **Collections of Brand** option, you can select a brand, or you can also create a new one. After selecting, Save it.

Website view (Front End view)

- Now, go to the Theme SCITA section and select the **Product Brands** snippet from the drop-down list.
- There are different variants for the 'Brand' snippet. Drag and drop any of the 5 snippets.

The screenshot shows a website's front-end view. At the top, there is a banner with a person wearing a black t-shirt and jeans. A blue button on the t-shirt says "Shop Now". Below the banner, there is a dark grey footer section. On the left side of the footer, there is a "About us" section with text about the company's mission to improve everyone's life through disruptive products. On the right side of the footer, there is a "Connect with us" section with icons for Facebook, Twitter, LinkedIn, and a magnifying glass. To the right of the footer, there is a sidebar titled "BLOCKS" with a search bar. Under the search bar, it says "Theme SCITA". Below that, there are several categories: "SCITA", "Brand Slider", "Brand Snippet 1", "SCITA", "Brand Slider", "Brand Snippet 2", "SCITA", "Brand Snippet 3", "Structure", "Banner", "Cover", and "Text - Image". A red arrow points from the "Shop Now" button area towards the "Blocks" sidebar.

- As you drag and drop the variants, a pop-up will be shown named **Brand Configuration** to select a Brand from the list which you want to display on the website.

Content Block Snippet

- There are **different blocks** for the 'Content' snippet. Drag and drop any of the 6 snippets.
- Using this Snippet, you can display the information of the company what you do, FAQs, values, etc.

Content Block

- You can edit the Content Block from the 'Customize' tab and change the icons, and images by double-clicking on them.

Client Variant Snippet

Backend Configuration

- To use this snippet, first you need to edit specific customers from the backend admin section.
- For that, go to WEBSITE \square eCommerce \square Customers.

The screenshot shows the Odoo Backend Customer Details page for 'Azure Interior'. At the top, there are navigation links for Sales (0), Purchases (5), No Data Yet (On-Time Rate), \$ 31,750.00 (Invoiced), 2 Vendor Bills, and a Go To Website button. Below this, there's a radio button group for 'Individual' and 'Company', with 'Company' selected. The customer name 'Azure Interior' is displayed in a large font. The address is listed as '4557 De Silva St., Fremont, California (CA) 94538'. The phone number is '(870)-921-0525'. The email is 'azure.interior24@example.com'. The website is 'http://www.azure-interior.com'. A red box highlights the 'Add to client slider' checkbox, which is checked. Other buttons visible include 'Tags' and 'Services'.

- In customer details, 'tick' the Add to client slider check box to display the customer slider on the website.
- Now you can use this snippet by switching to the website view

Website view (Front End view)

- Now, go to the Theme SCITA section and select the Client snippet from the drop-down list.
- There are different variants for the 'Client' snippet. Drag and drop any of the 3 snippets.
- After selecting a Client slider variant, you must click Save the changes.

Client Variant

The screenshot shows the Odoo Frontend. On the left, there's a 'Testimonials' section with a testimonial from 'Mary Deborah' (represented by a placeholder image). The text reads: 'Lorem ipsum dolor amet, adipiscing, sed do eiusmod tempor incididunt ut labore dolore magna aliqua. Lorem ipsum dolor amet, adipiscing, sed do eiusmod tempor incididunt ut labore dolore magna aliqua. Lorem ipsum dolor amet, adipiscing, sed do eiusmod'. Below this is a 'Our New Partners' section featuring a logo for 'DODO ADDICT'.

Top Dealer Configuration:

- For this configuration navigate through Theme Scita Configuration>Top dealer configuration

The screenshot shows a configuration interface for 'Top dealers'. At the top, there is a field labeled 'Name' with the value 'Top dealers'. Below this, a section titled 'Vendors' contains several buttons: 'AutoCare x', 'AutoMotive x', 'AutoPart1 x', 'AutoParts x', 'Car Shine x', and 'Company x'. The 'AutoParts x' button is highlighted with a red border.

- And after that in the edit mode of website select the client snippets and drag and drop client snippet 4.

The screenshot shows a website page titled 'Top Dealers'. The page features a grid of six dealer cards. Each card includes a logo, the text '0 Products', and contact information: a location pin, a phone icon, and the number '(+91) - 540-025-124553'. The dealers listed are:

- AutoCare: Located at 892382 J Ajman Fujairah United Arab Emirates.
- AutoMotive: Located at 892382 J Ajman Fujairah United Arab Emirates.
- AutoParts: Located at 892382 J Ajman Fujairah United Arab Emirates.
- AutoPart1: Located at 5171 W Campbell Ave undefined Kent Alabama United States.
- Car Shine: Located at 8293 J Alabama Arkansas United States.
- Company: Located at 8293 J Alabama Arkansas United States.

'Category Slider' Snippet

Backend Configuration

- There are 4 different types of Category Sliders: 2 Banners and 2 Sliders.
- To use the Sliders, first you must configure the 'Category Sliders' from the backend configuration.
- Before Category Slider Configuration, you must add the Categories from WEBSITE □ Website □ Configuration □ eCommerce Categories.
- Now, for the Category Slider Configuration, go to WEBSITE □ Website □ Theme Scita Configuration □ Category Slider Configuration.

The screenshot shows the Odoo backend interface under the 'Theme Scita Configuration' tab. In the left sidebar, there is a 'Category Snippet Configuration' section with a 'CREATE' button. A dropdown menu is open over the 'Category Snippet Configuration' option, which is highlighted with a red box. The dropdown menu lists several configuration options: Product Brands, Product Style Tag, Website Product Paging, Delivery Zipcode Configuration, Blog Snippet Configuration, Category Snippet Configuration (also highlighted with a red box), Multi Product Snippet Configuration, Product Category Image Snippet Configuration, Brand Snippet Configuration, and Product Snippet Configuration. Below the dropdown, a message says 'Click to define a new slider.'

- After clicking on 'Category Slider Configuration', the Category Slider page will be redirected.
- From here, you can edit available categories and create a new Category Slider.

The screenshot shows the Odoo backend interface under the 'Category Snippet Configuration / New' tab. The form has fields for 'Slider name' (set to 'Trending'), 'Active' (checkbox checked), and 'Collections of category' (a dropdown menu showing 'Trending' selected). There is also a 'Create' button in the top right corner.

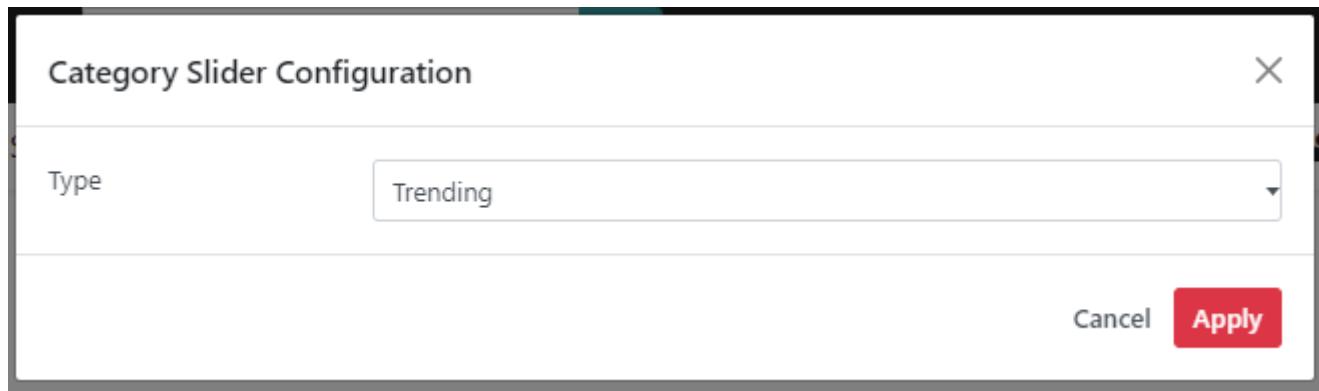

- Insert desired 'Slider Name' and select required Categories from the Collection of Category drop-down option.
- The categories which are selected in the 'Collection of category' option will get displayed on "Category Slider" Snippet (Website view).
- Now you can use the 'Category Slider' snippet by switching to the website.

Website view (Front End view)

- Now, go to the Theme SCITA section and select the Category slider snippet from the drop-down list.
- There are 6 different types of 'Category' snippets and 3 category sliders. Drag and drop any of the 4 snippets.

Category Slider

- Now, if you drag & drop the 'Category Slider', it will show a pop-up from where you can select the 'Category Slider' Type which you want to display on the website.

- After clicking on the Apply button and saving the website changes, you will see the Trending slider you have created on the website.

'Case Study' Snippet

- There are different variants for the 'Case Study' snippet. Drag and drop any of the 3 snippets.

Case Study

- You can edit the details of any content and column from the 'Customize' tab.

'Contact Us' Snippet

- There are different types of 'Contact Us' snippets. Drag and drop any of the 6 types.

Contact Us

Adding 'Deal of The Day' Snippet

- There are different types of 'Deal of The Day' snippets. Drag and drop any of the 5 types.
- There is a Timer snippet in 'Deal of The Day'. Using this you can display the timer on the website.

Note: If you have set the timer, the Deal of the day Snippet will appear with reverse calculation. You can also set the message to display after the deal of the day timing is completed.

Setting up Timer

Coming Soon X

Date :

Hours :

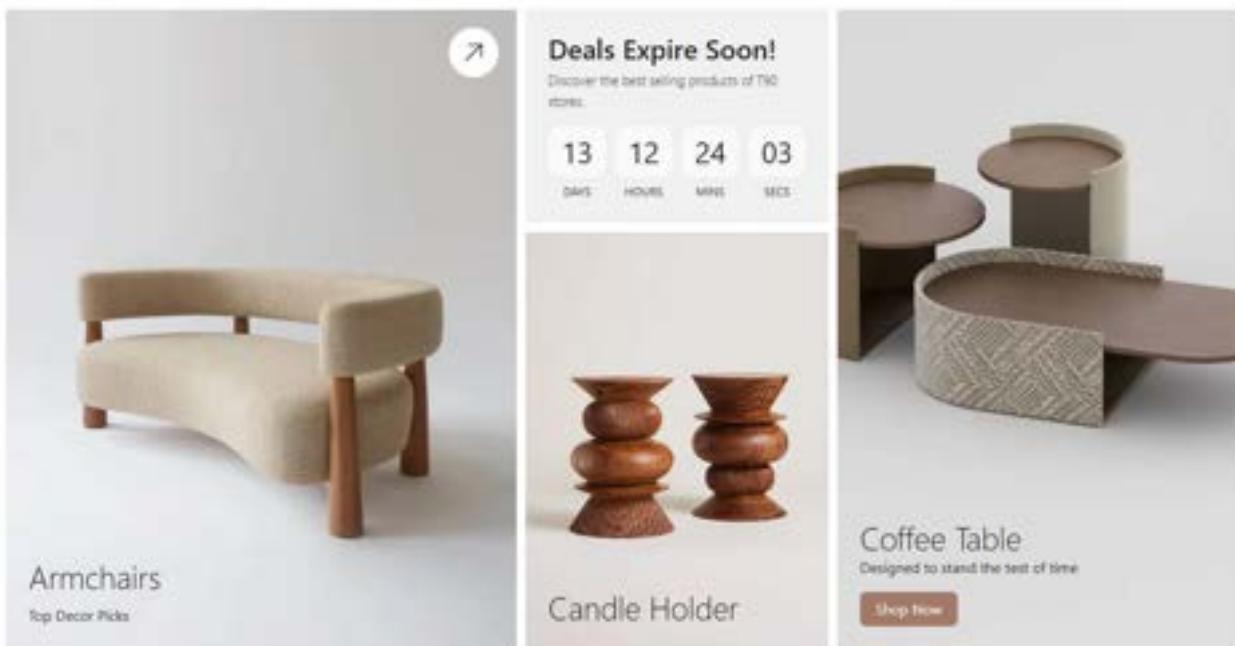

Minutes :

Second :

Sale Over Message :

- Drag & drop the Timer on the Deal of the Day snippet, and a popup will appear to insert the details of the Timer. You should insert the details like Date & Time as per your offer duration and a message after completion of the deal.

Deal of The Day

- After saving the details, the webpage will be shown with the timer of the offer.

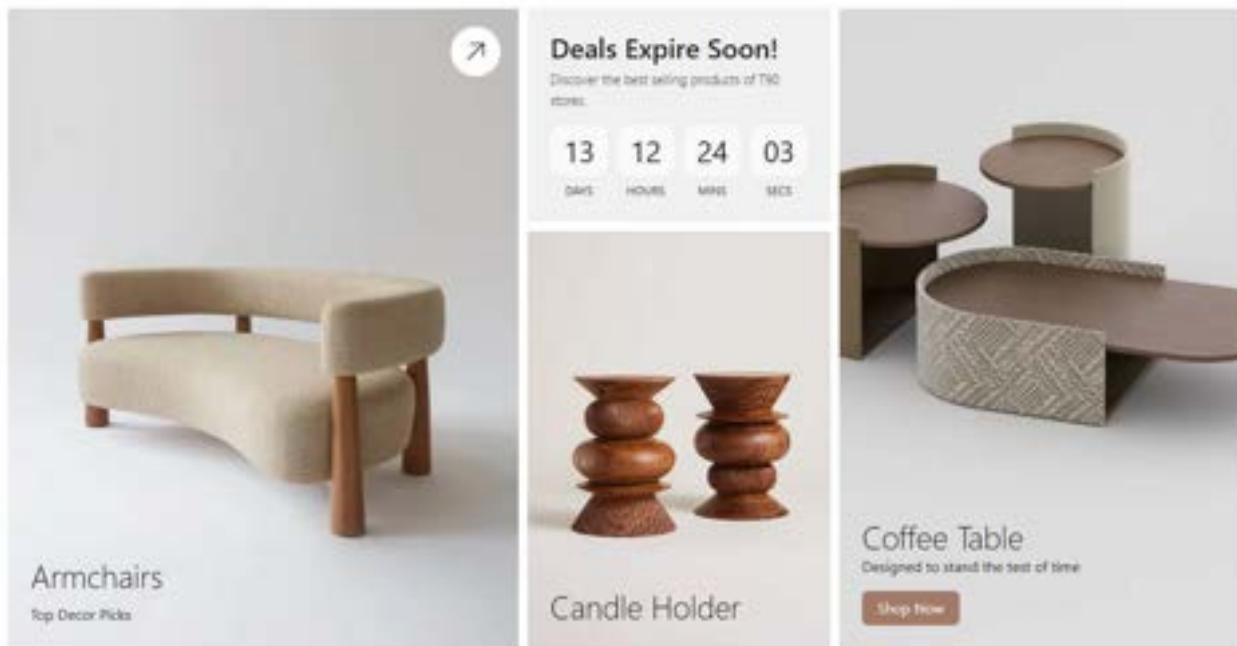

- To set the product under the 'Deal of the Day offer, go to the **eCommerce → Products → Product detail page**
→ **Sales**
→ Enable the **Available for deal of the day** option and save the changes.

The screenshot shows the 'Products / Customizable Desk' page. At the top, there's a 'Product Name' field containing 'Customizable Desk'. Below it are checkboxes for 'Can be Sold' (checked) and 'Can be Purchased' (checked). There's also an option to 'Add Multiple Images?' with a small icon. A large image of the desk is on the right. Below the product name, there are tabs for 'General Information', 'Attributes & Variants', 'Sales' (which is selected), 'Purchase', 'Inventory', and 'Accounting'. Under 'UPSELL & CROSS-SELL', there are sections for 'Optional Products' (with 'Conference Chair' and 'Warranty' listed), 'Accessory Products' (with a note about 'Accessories are not yet available in this e-commerce shop'), and 'Tags' (with 'Available for deal of the day' checked, which is highlighted with a red border). On the right side, there are sections for 'ECOMMERCE SHOP' (with 'Website', 'Categories', 'Brand', and 'Out-of-Stock' options like 'Continue Selling' and 'Show Available City'), and 'EXTRA PRODUCT MEDIA' (with 'Out of Stock Message').

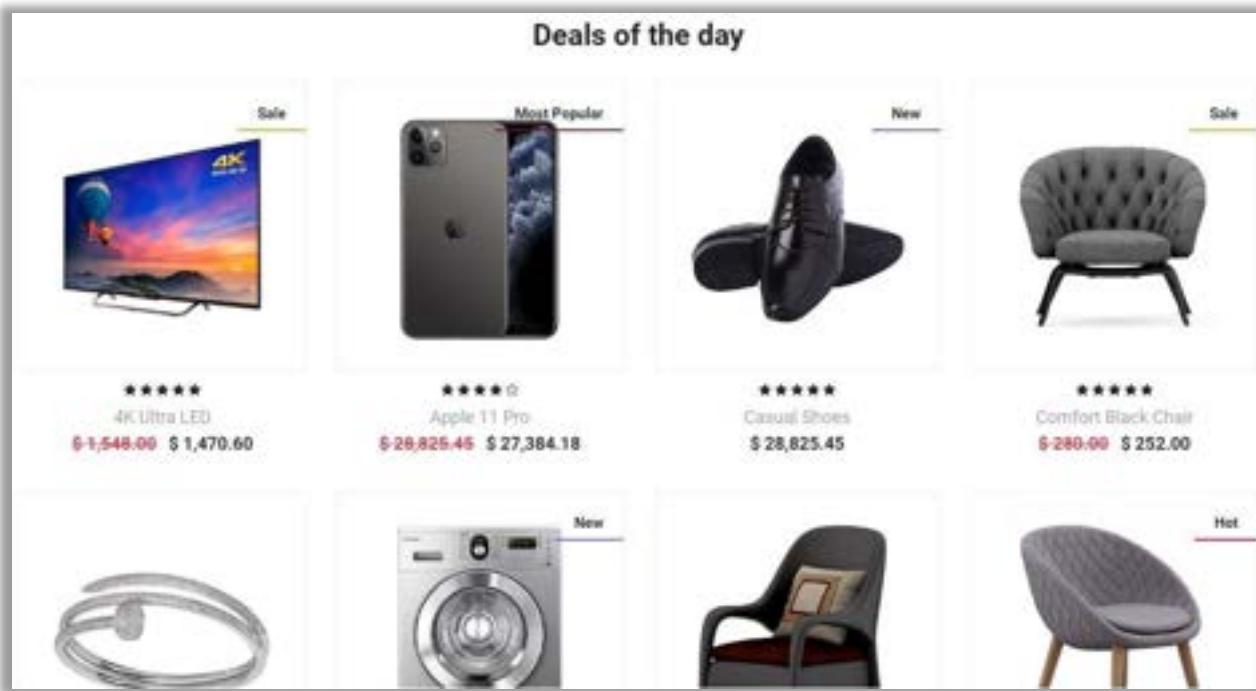

- To set the product under the 'Deal of the Day offer, go to the **details page of Product → eCommerce**
→ Enable the **Available for deal of the day** option and save the changes.

Website View

- You will see Deal of the Day with Timer as per the Timer Configuration.

- Now by clicking on All Products , you will get the list of the products which are selected for the deal of the day offer.

Adding ‘Google Map’ Snippet

- There are two variants for the ‘Google Map’ snippet. Drag & drop any of the two variants.

The screenshot shows a website builder's interface with a dark theme. On the left, a preview window displays a section titled 'About Us'. This section includes a list of useful links ('Home', 'About us', 'Products', 'Services', 'Legal', 'Contact us') and a 'About us' paragraph. To the right of this is a 'Connect with us' section featuring social media icons for Facebook, Twitter, LinkedIn, and YouTube. A red arrow points from the top right towards the bottom right corner of the preview window, indicating where a snippet might be placed. On the far right, a sidebar titled 'Blocks' shows two options: 'Google Map' and 'Google Map With content'. Below these are other block types like 'Image', 'Text', 'Image + Text', 'Text', 'Numbers', 'Picture', and 'Columns'.

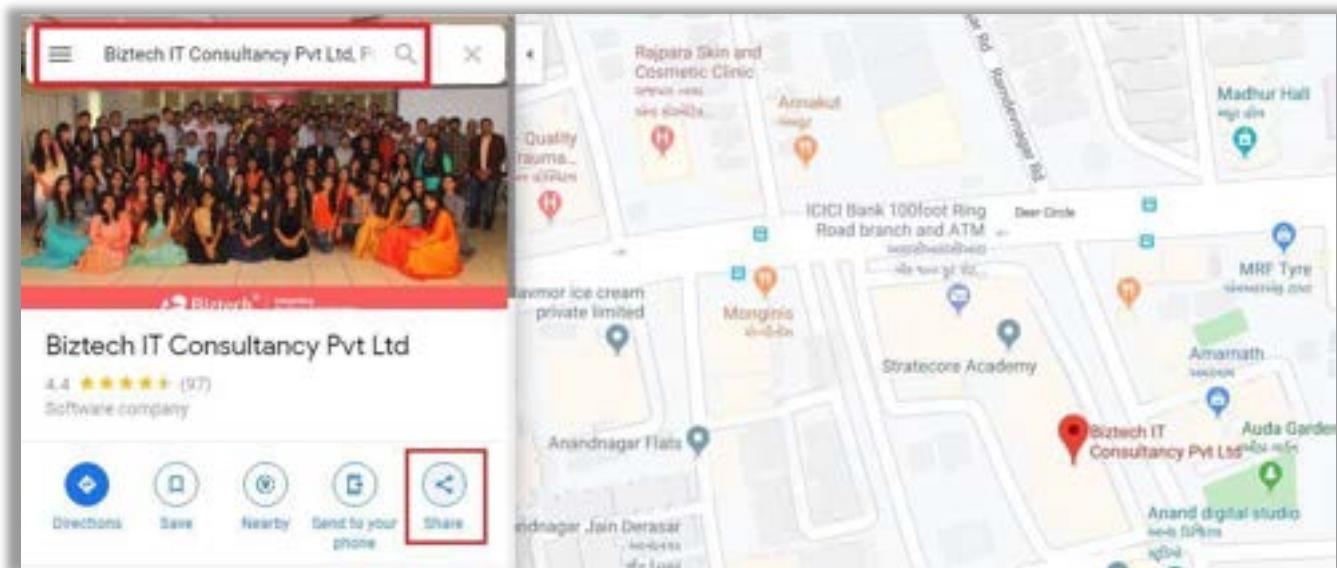

- As you drag and drop this snippet, a pop-up will be shown named “Google Map Snippet Configuration” to insert the Embed Code of location.

A modal dialog box titled 'Google Map Snippet Configuration' is displayed over a website page. The page has a dark header with 'About Us' and a main content area with a 'Section Subtitle' and a 'Contact Us' button. The modal contains an 'Embed Code' input field with placeholder text: 'Add Embed Code' and instructions: 'Go to google map. Find address then click on share button. Click on embed a map and copy html.' It also features 'Cancel' and 'Apply' buttons.

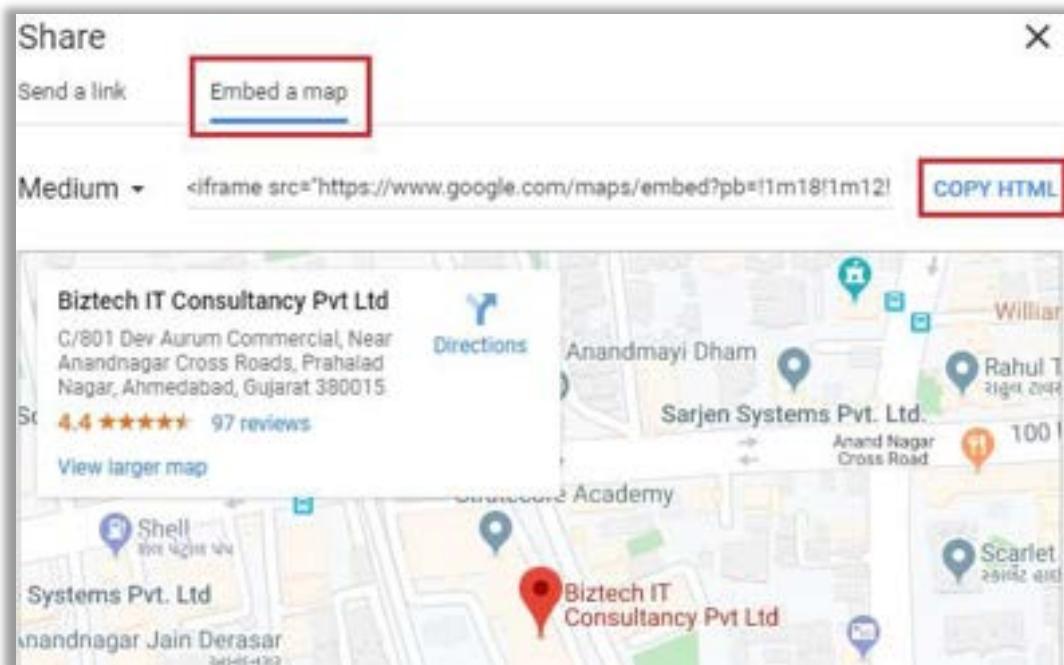

You need to follow the below steps to get the Embed Code of location:

Step-1: Go to Google Maps

(<https://www.google.com/maps/>). Step-2: Search location

Step-3: Click on the Share icon. By clicking on it, a Share pop-up will appear.

Step-4: Click on the Embed a Map option and then COPY HTML.

Step-5: Now, back to the Theme Scita configuration page. Paste the Embed Code and click **Apply** button to display the Google Map snippet with the selected location.

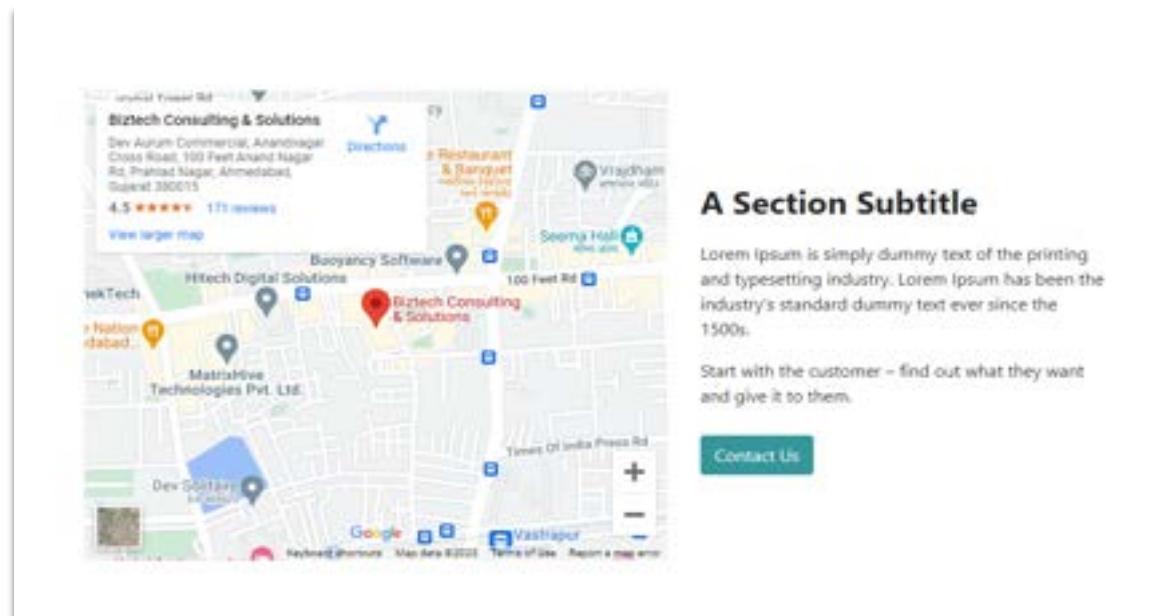

- As you clicked on the Apply button, the google map with selected locations can be seen. Save the snippet configuration.

The image shows a Google Map interface with several location markers. One red marker is placed on a business listing for "BizTech Consulting & Solutions" located at "Dev Aurum Commercial, Anandnagar Cross Road, 100 Feet Anand Nagar Rd, Phata Nager, Ahmedabad, Gujarat 380015". The listing includes a 4.5-star rating and 171 reviews. Other visible markers include "Hitech Digital Solutions", "MatrixHive Technologies Pvt. Ltd.", "Dew Solitaire", "Baoyancy Software", and "Vastriager". The map also displays street names like "100 Feet Rd", "Towers Of India Press Rd", and "Vastriager". A sidebar on the right contains a section subtitle "A Section Subtitle" followed by placeholder text about dummy industry text, and a "Contact Us" button.

Website view (Front End view)

- The Google map will be displayed on the website as per the Embed code.

Adding the 'How It Works' Snippet

- There are different variants for the 'How It Works' snippet. Drag & drop any of the variants.

How It Works

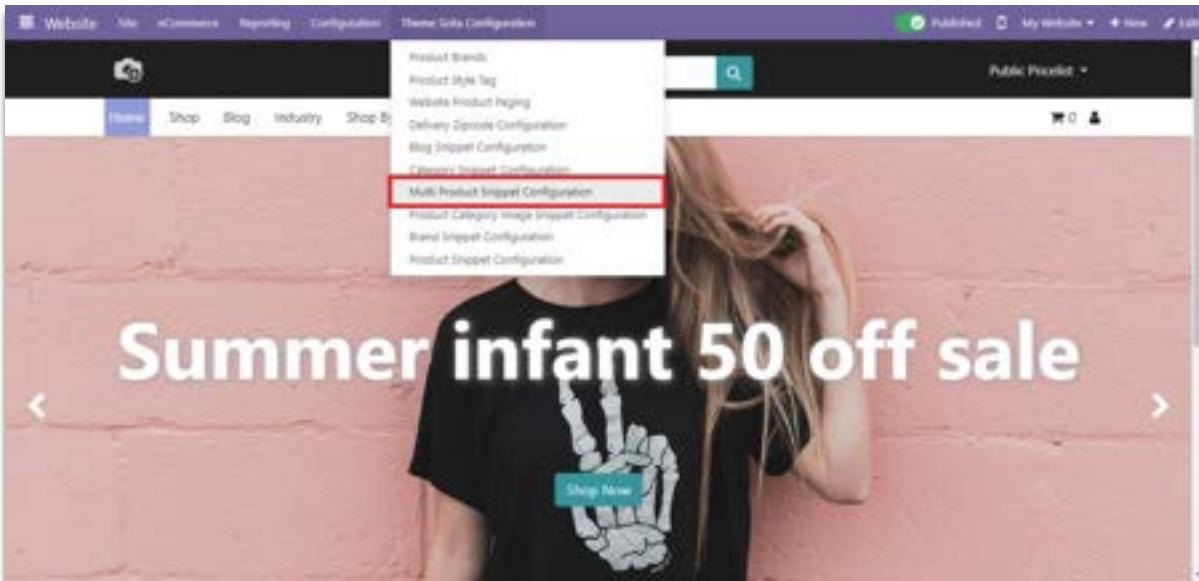

A screenshot of a website's editing mode showing a 'How It Works' snippet. The main content area displays a 3D-style illustration of a laptop, a smartphone, and two people interacting with them. The title 'How It Works' is centered above the illustration. Below the illustration, three numbered steps are listed: 1. Request Quote, 2. Compare Price, and 3. Choose Provider, each with a small paragraph of placeholder text. To the right of the main content is a sidebar titled 'CUSTOMIZE' (with tabs for 'BLOCKS', 'CUSTOMIZE', and 'THEME'). The 'CUSTOMIZE' tab is selected. It contains settings for the snippet: 'How It Works Snippet 1' (with a percentage dropdown), 'Layout' (set to 'Grid Col 2/3'), 'Background' (color swatch), 'Content Width' (set to 'Auto'), 'Height' (set to '100%'), and 'Visibility' (checkbox). Below these are sections for 'Inline Text' (with a rich text editor) and 'Header 4' (with a rich text editor).

- Under the 'Customize' tab during website editing mode, you can customize No. of Columns, Background, Color of the snippet, etc. You can Move, Duplicate and Delete the snippet from here. You can also resize the snippet as per your need.
- You can customize every block of the snippet and change or remove any image. Along with the image, you can also add Text, Document, Pictogram and Video to the snippet.

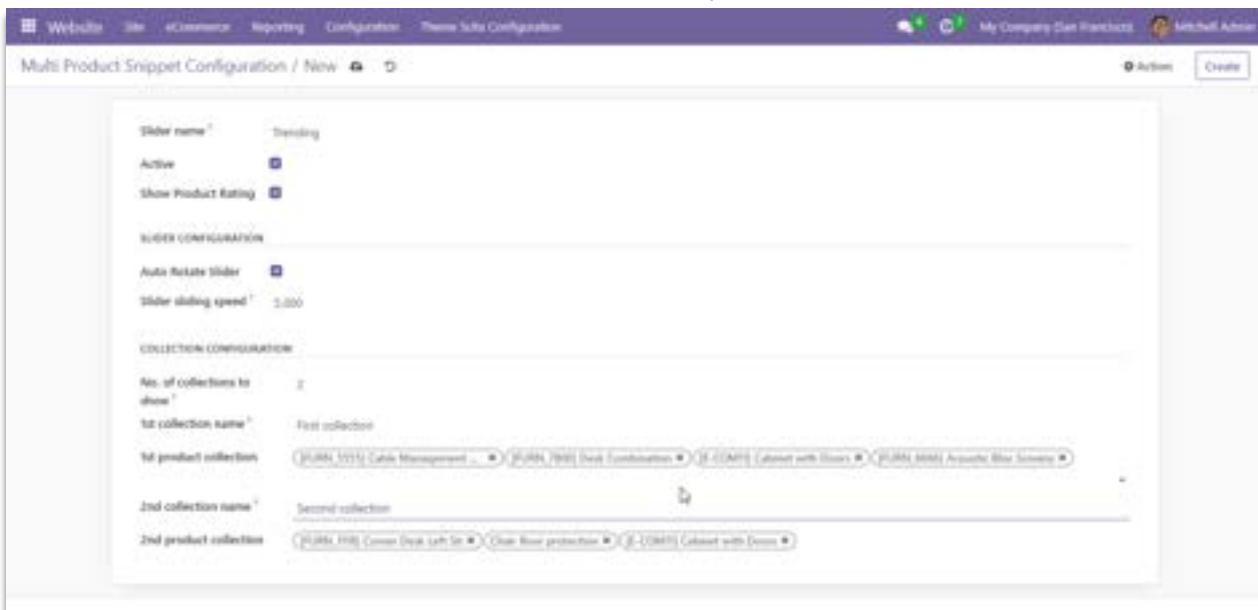

'Multi Product Slider' Snippet

Backend Configuration

- To use this snippet, first you need to configure the 'Multi Product Slider' configuration in the backend.
- For that, go to Sales ▶ Slider Configuration ▶ Multi Product Slider.

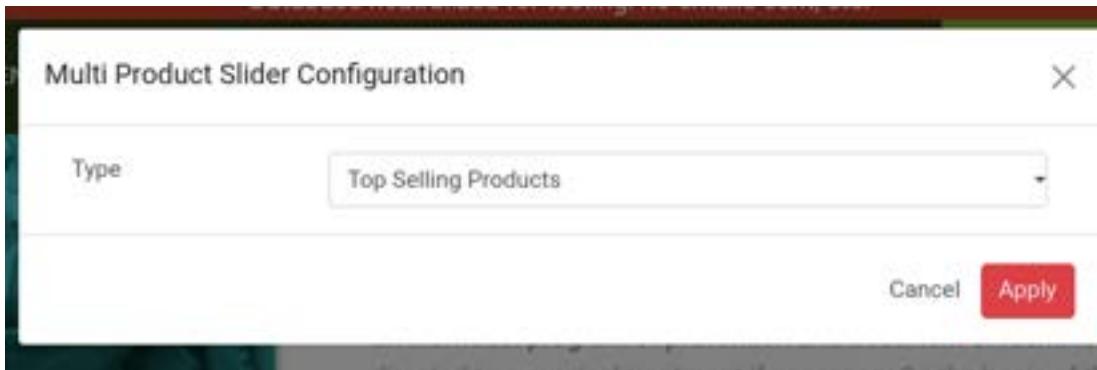

- You need to insert 'No. of Product Collection' to display on the website. You need to select multiple products for the collection. You can also select Auto Rotate Slider option with the slider's time duration.

A screenshot of the 'Multi Product Slider Configuration / New' form. The form includes fields for 'Slider name' (set to 'Trending'), 'Active' (checkbox checked), 'Show Product Rating' (checkbox checked), 'Auto Rotate Slider' (checkbox checked), 'Slider sliding speed' (set to '0.800'), 'No. of collections to show' (set to '2'), '1st collection name' (set to 'First collection'), '1st product collection' (multiple selection dropdown showing 'PLA0010 Cable Management', 'PLA0010 Desk Combination', 'PLA0010 Cabinet with Boxes', and 'PLA0010 Acoustic Blue Screen'), '2nd collection name' (set to 'Second collection'), and '2nd product collection' (multiple selection dropdown showing 'PLA0010 Corner Desk Left Set', 'Clear Blue protection', and 'PLA0010 Cabinet with Boxes').

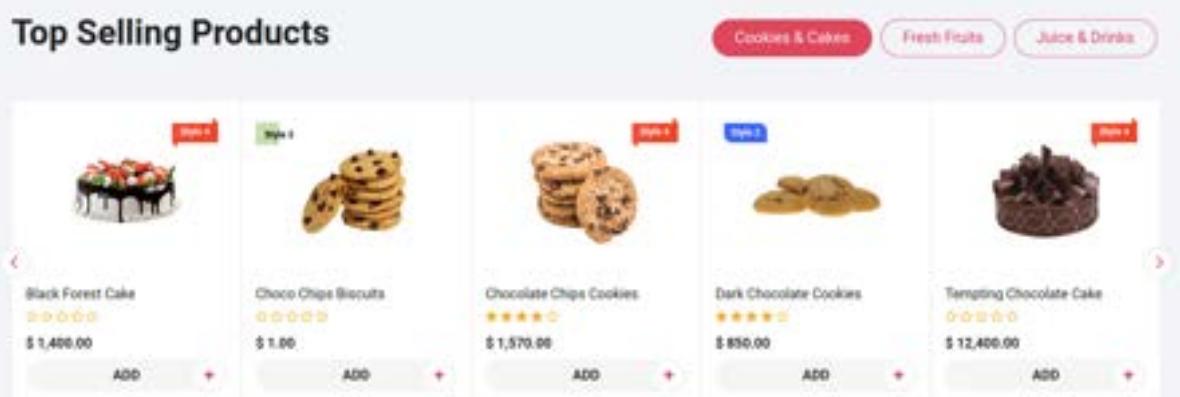

- After saving the details, use the 'Multi Product Slider' snippet by switching to the website.

Website view (Front End view)

- Now, go to the Theme SCITA section and select the Multi Product Slider snippet from the drop-down list.
- There are 2 different variants for the "Multi Product Slider" snippet. Drag and drop any of the 2 snippets.

- As you drag and drop the snippet, a pop-up will appear to select a **type** of 'Multi Product Category' which you want to display on the website. After selecting it, click on the 'Apply' button and **Save** the website.

- You can see the Multi Product Slider with three product collections Cookies and Fresh fruits and Juices and drinks which is configured in Backend.

Deal of the day Configuration:

- For configuring deal of the day configuration theme Scita configuration>Deal of the day configuration

The screenshot shows the 'Deal of the Day Configuration' page. The left sidebar lists various snippet configurations: Product Brands, Product Style Tag, Delivery Zipcode Configuration, Top Dealers Configuration, Trending Products Configuration, Deal of the Day Configuration (which is highlighted with a red box), Multi Product Snippet Configuration, Product Category Image Snippet Configuration, Brand Snippet Configuration, and Product Snippet Configuration. The main content area shows settings for a 'Deal of Day Banner' named 'Deal Of The Day'. It includes fields for Banner Title ('Bestseller'), Active status (checked), Image banner (a thumbnail of a product), Banner Text ('Organic Fruits & Vegetables'), Banner Button Text ('Shop Now'), and Banner Button URL ('#'). Below these are lists of products: 'Products' (including Balaico Choco Milk, Cinnamon, Lactena Purifine Milk, Marukan Organic Rice, Nestle Chocoops Brea, and Nestle Milo Active Go) and 'Deal of Day Banner' (including Nestle Chocolate Hazelnut Spread, Organic Olive Oil, Pringles Potato Crisps, and Samson Sambal Oelek Sauce). At the bottom, there's a 'DEAL OF DAY BANNERS' section with an 'Add a Media' button and a preview image of a deal banner.

now edit mode of website and select multi product snippet and drag and drop multi deal product slider 1

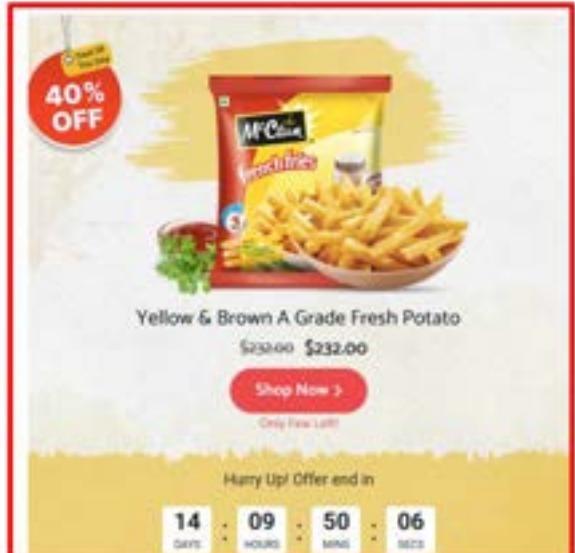

The screenshot shows a website edit mode with a 'Multi Deals Slider' component. A modal window titled 'Multi Deal Slider Configuration' is open, displaying a form with the following fields: 'Date' (set to 20/01/2024), 'Hours', 'Minutes', 'Seconds', and 'Sale Over Message' (containing the text 'Sale is ongoing!'). Below the modal, the website content shows two testimonial cards for 'Darryl Curtis' and 'Kalya Mangu'. The right side of the screen displays the website's visual editor interface with various layout and design tools.

Bestseller

- Nestle Chocapic Breakfast..
★★★★★
\$ 3,400.00
- Nestle Milo Active Go
★★★★○

Deal Of The Day

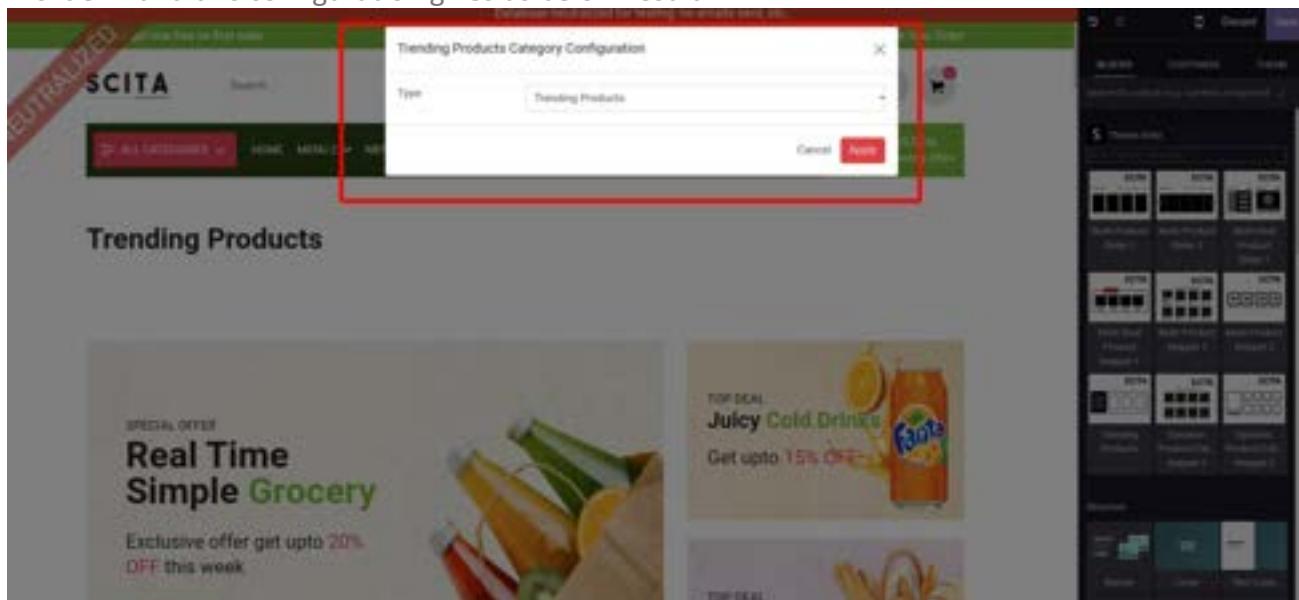

and this configuration sets up above result.

Trending products Configuration:

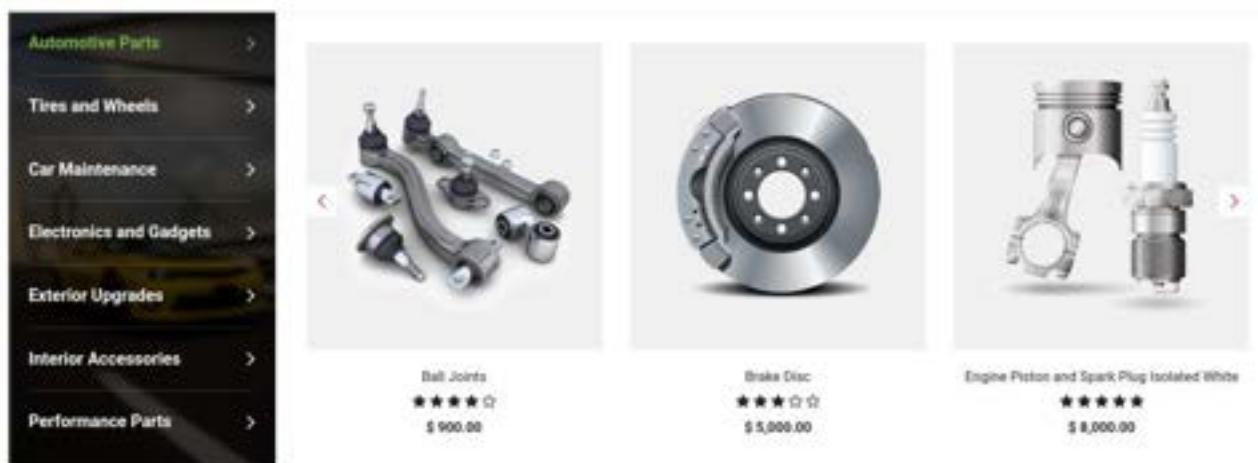

- For configuring deal of the day configuration theme Scita configuration>Trending products Configuration

The screenshot shows the 'Trending Products' configuration page. At the top, there's a navigation bar with 'Website', 'Site', 'eCommerce', 'Reporting', 'Configuration', and 'Theme Scita Configuration'. Below that, a sub-navigation bar has 'New' selected and shows 'Trending Products' with a status indicator. The main form area has a 'Name' field containing 'Trending Products' which is highlighted with a red border. Underneath, there are 'Active' and 'Category' dropdowns. The 'Category' dropdown is expanded, showing several options: 'Automotive Parts', 'Tires and Wheels', 'Car Maintenance', 'Electronics and Gadgets', 'Exterior Upgrades', 'Interior Accessories', and 'Performance Parts'. There are also some small checkboxes and buttons at the bottom of the form.

- Now edit mode of website and select multi product snippet and drag and drop multi deal product slider 1 and this configuration gives us below result

Trending Products

'Newsletter' Snippet

- There are different variants for the 'Newsletter' snippet. Drag and drop any of the snippets.
- As you drag and drop variants, a pop-up will be shown named "Add a Newsletter Subscribe Button" to select the Newsletter which you want to display on the website.
- After selecting a Newsletter, you must click Save to save the changes.

- The Social media icons can be seen on Header and Footer.

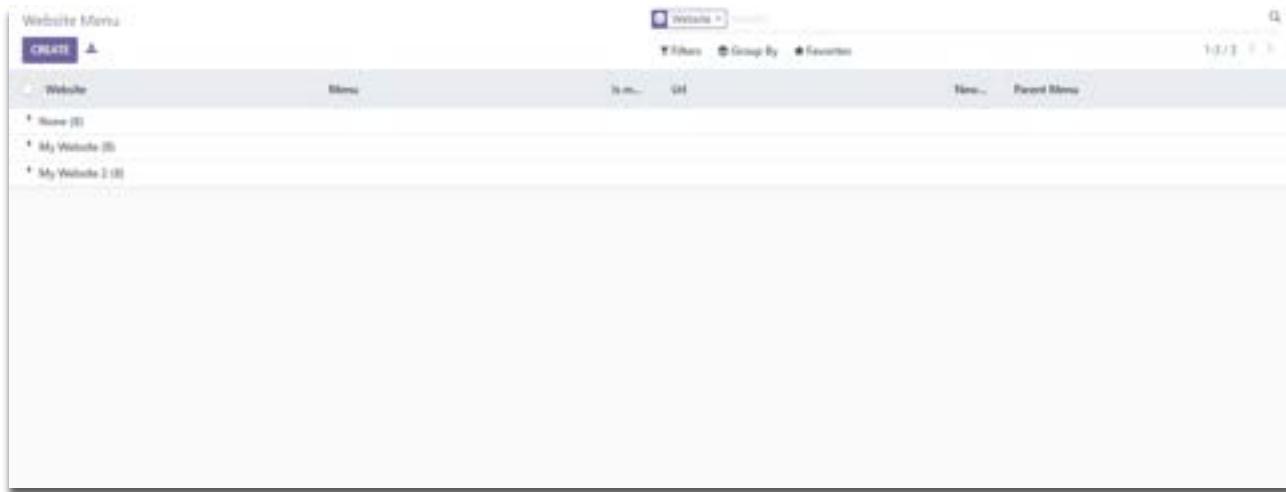

Configuring ‘Mega Menu’

Backend Configuration

- Users can customize their mega menu as per their requirements. For that, the first user needs to enable the developer mode from the WEBSITE Menu Settings General Settings
- Navigate to the ‘Developer Tools’ section. Click on the Activate developer mode.
- After activating it, the Menu option will be displayed.
- Now, go to WEBSITE Menu Website Configuration Menus.

- By clicking on it, you will get the “Menu” list. If you want to make Mega Menu from the list, you can do that by editing it or creating a new Menu.

- Check the “Scita Megamenu” checkbox to make a Mega Menu on the website.
- As per your website structure & requirement, select a Menu from the ‘Megamenu View Type’ drop-down option.

- You can choose different mega menu types as shown below:
 - **Category Mega Menu:** To display Mega Menu as per the categories.
 - **Category Image Mega Menu:** To display Mega Menu Category Images Menu.
 - **Product Mega Menu:** To display Mega Menu as per the products.
 - **Pages Mega Menu:** To display page categories in Mega Menu.
 - **Service Menu, Service Content Menu, and Service Banner Meg Menu.**

Configure General Settings of Mega Menu:

- The general settings of the mega menu contain below special features:
 - Select the no. of Columns you want to display in the Mega menu.
 - You can display the slider as per category sequence in Mega Menu using Category Slider. For that, 'tick' the Want to display category slider.
 - Insert the Slider Label (Name) which will be displayed on the header of the slider.
 - Enable the display Menu Footer and enter the text for the footer in the 'Footer Content' text area.

Configure Categories and Subcategories for Mega Menu

To create a Category:

- Go to WEBSITE Menu Website eCommerce eCommerce category. Now click on
- 'Create' button to create a product category.
- By entering the name of the category, you must check the Include in Mega Menu checkbox.
- You must select Main Menu to display this category.
- To create a category, set the main menu as a menu based on your requirement.
- Give sequence numbers to decide the sequence.

To create Subcategory:

- Enter the name of the category and choose a Parent Category name in which you want to create a subcategory.
- You can also give a sequence number to decide the sequence.

Note: If you enter the category name and do not select the parent category then by default that category will also be included in the mega menu. In such a case, that category will be a parent category by default.

Mega Menu view (Frontend View)

The screenshot displays the SCITA theme's mega menu view. At the top, there is a navigation bar with links: Home, Menu 1, Festival Shopping (highlighted with a red box and orange circle labeled 1), Menu 3, Elements, Page Features, and Shop. To the right of the menu are icons for shopping cart (0) and user profile.

The main content area features a grid of products categorized into three columns:

- Fashion**: Includes items like Boots, Trouser, Men, Women, Kids, Shoes, Sneakers, Denim Jeans, and Western Top.
- Furniture**: Includes items like Designer Desk, Designer Table, Floor protection, Modern Lamp, Wood Chair, Wooden Cabinet, Comfort Sofa, Wooden Dining Table, and Wooden Stool.
- Jewelleries**: Includes items like Anklet, Bracelet, Designer Collections, Diamond Ring, Fashion Earring, Gold Imitation, Necklace, Vintage Jewelleries, and Gold Pendant Necklace.

To the right of the grid is a "New Arrival" slider with three categories: Footwear (featuring a person in jeans and sneakers), Furniture (featuring a wooden chair), and Jewelleries (featuring a diamond ring). The "Footwear" category is currently selected, indicated by a red box and orange circle labeled 2.

Below the grid, there is a section titled "Exclusive products" containing a photograph of four people (two men and two women) sitting together.

Orange circles with numbers 1 through 4 are overlaid on the image to point out specific features: 1 points to the "Festival Shopping" menu item; 2 points to the "Footwear" slider; 3 points to the "Footwear" slider title; and 4 points to the "Exclusive products" section.

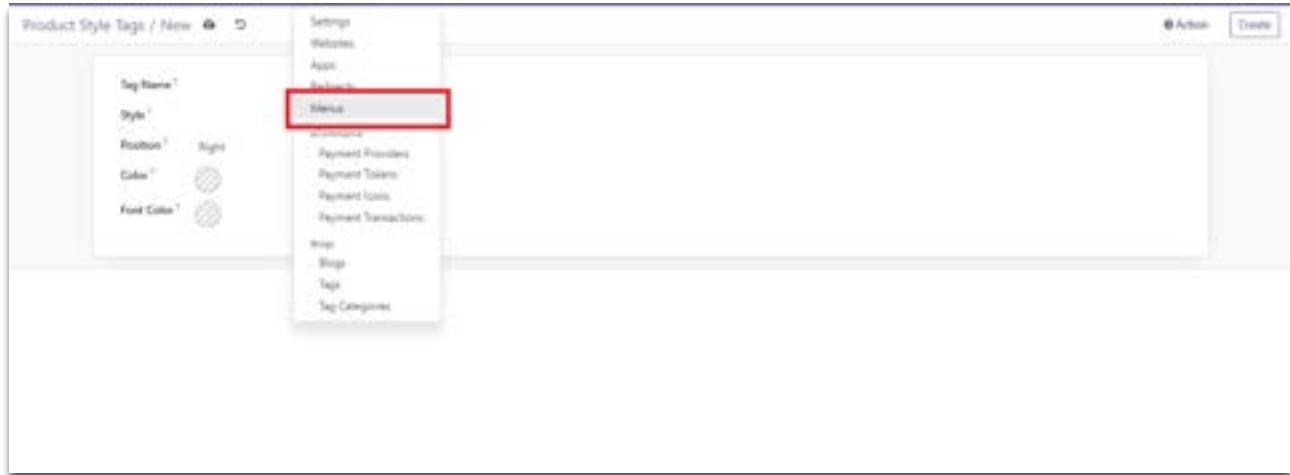

- The mega menu named “Festival Shopping” can be seen.
- The three columns of Parent Category as configured: Fashion, Furniture, and Jewelries
- If the Category Slider is enabled with related details that can be seen as per the selection of the position. Here in the category slider, the Parent Category slides will be displayed. (3 sliders)
- If the footer is enabled with the images and details that can be seen in the footer area.

Configuring ‘Shop Page’ Features

Configure ‘Sales Ribbon’

Backend Configuration

- For ‘Sales Ribbon’, you must configure it in backend then only records can be displayed on the front.
- To configure go to WEBSITE \square Website \square Theme Scita Configuration \square Product Style Tag.
- Then click on the Configuration \square Menus

- Create Product Style Tags inserting ‘Tag Name’ and ‘Color’.

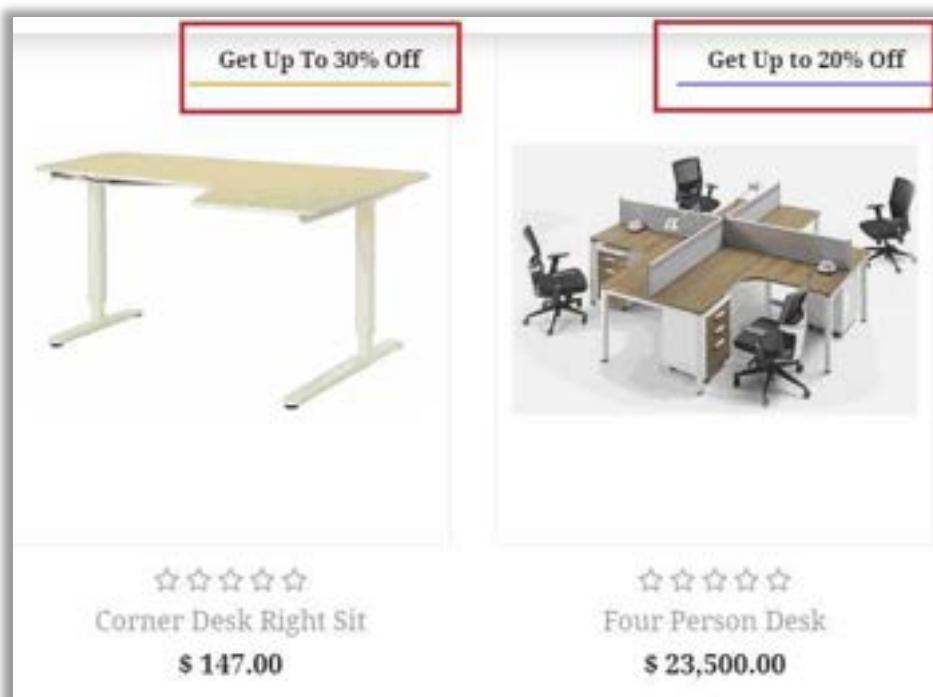

PRINT LABELS UPDATE QUANTITY REPLENISH

- After configuring the Product Style Tags (Sales Ribbon), go to Products  Products.
- Select any product and click on the eCommerce tab where you need to select Tags for the product.

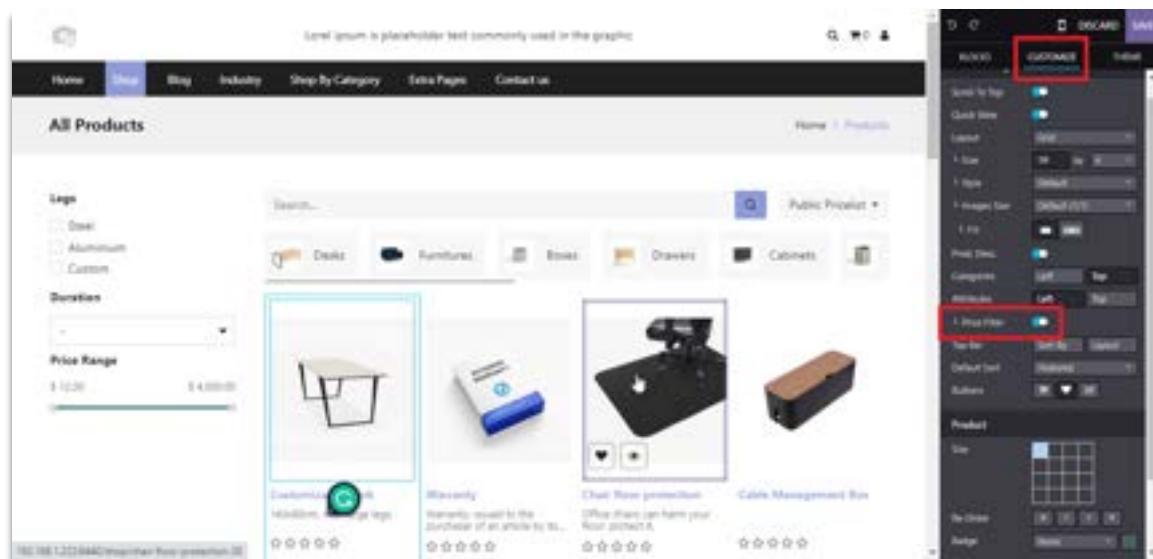

Website view (Front End view)

- After all the configurations, go to the website and check the products for which you have selected the Product Tags (Sales Ribbon). You will see the 'Tag' at the top right corner of the product.

Configure the 'Price slider'

- To make 'Price Slider' visible on the website, go to the Shop page on top left corner you will find a Customize option.

- Click on that and select the Product Price slider, then the price slider section will be visible on the Left side of the shop page.

Configure 'Grid View' and 'List View'

- You can see the products of the 'Shop' page in Grid view and List view.
- You can see the Grid view by customizing it in 2, 3, or 4 columns.
- You can find the layout option under the customized option and you can also define the size under the customized option.

Grid View with 4 columns:

The screenshot shows the 'All Products' page in a grid view. On the left, there are filters for 'Legs' (Steel, Aluminum, Custom) and 'Duration'. A price range slider is set from \$100.00 to \$4,000.00. The main area displays four product cards: 'Customizable Desk' (Hüllhorn, with large legs), 'Warranty' (Warranty issued to the purchaser of an article by its manufacturer, promising to repair or replace it if necessary within a specified period of time.), 'Chair Floor protection' (Office chairs can harm your floor; protect it.), and 'Calculator Management Box'. Each card includes a star rating, a 'like' button, and a price (\$750.00, \$20.00, \$12.00, \$100.00). To the right, a sidebar titled 'Products Page' shows the 'EMPOWER' tab selected. Under 'Layout', it is set to 4 columns. Other settings include 'Image Size' (Default (1x1)), 'Print Item' (Enabled), 'Category' (Left - Top), 'Attribute' (Left - Top), 'Title Item' (Enabled), 'Sort By' (Sort by - Default), and 'Actions' (Default).

List View:

The screenshot shows the 'All Products' page in a list view. The layout is identical to the grid view, with filters for 'Legs' and 'Duration', and a price range slider. The main area lists three products: 'Customizable Desk' (Hüllhorn, with large legs), 'Warranty' (Warranty issued to the purchaser of an article by its manufacturer, promising to repair or replace it if necessary within a specified period of time.), and 'Chair Floor protection' (Office chairs can harm your floor; protect it.). Each product card includes a star rating, a 'like' button, and a price (\$750.00, \$20.00, \$12.00). To the right, a sidebar titled 'Products Page' shows the 'CUSTOMIZE' tab selected. Under 'Layout', it is set to 1 column. Other settings are identical to the grid view configuration.

Configure 'Sort by Feature'

- Sort by feature provides different sorting options like
 - Price: High to Low
 - Price: Low to High
 - Name- A to Z
 - Newest Arrivals
 - Featured

The image shows a product listing page on the left and a configuration interface on the right.

Product Listing Page:

Multiple Image Slider

Multiple Image Slider for a Product (Multi Image Gallery)

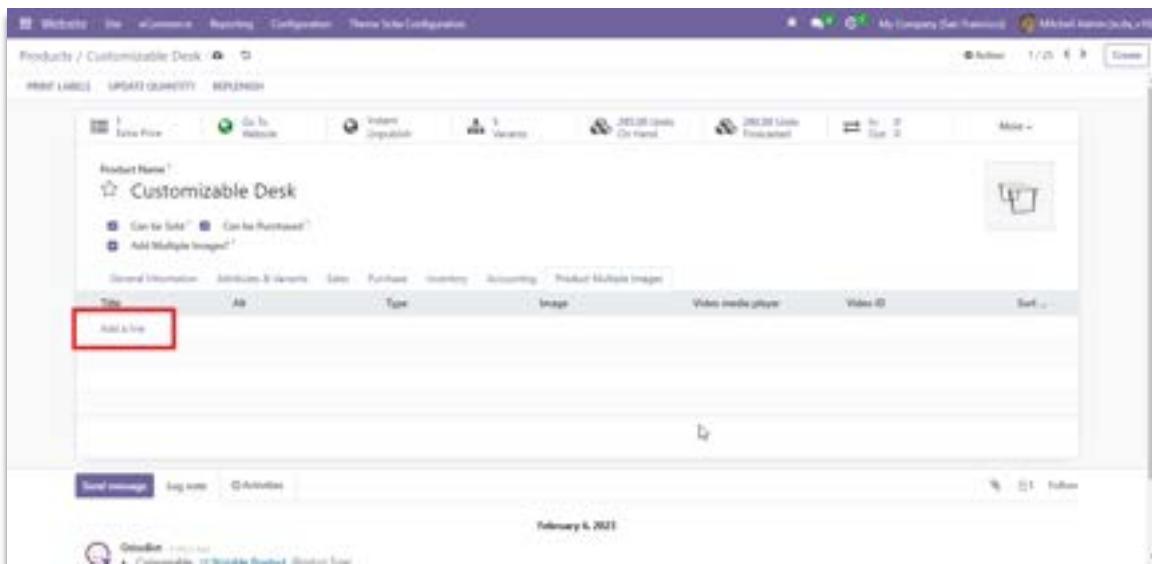

You can display product images with different **colors** and **variants** on the Product details page by configuring them from the backend. You can also display the different images of the product by customizing the **Slider Effects** and **Thumbnail size**.

Backend Configuration

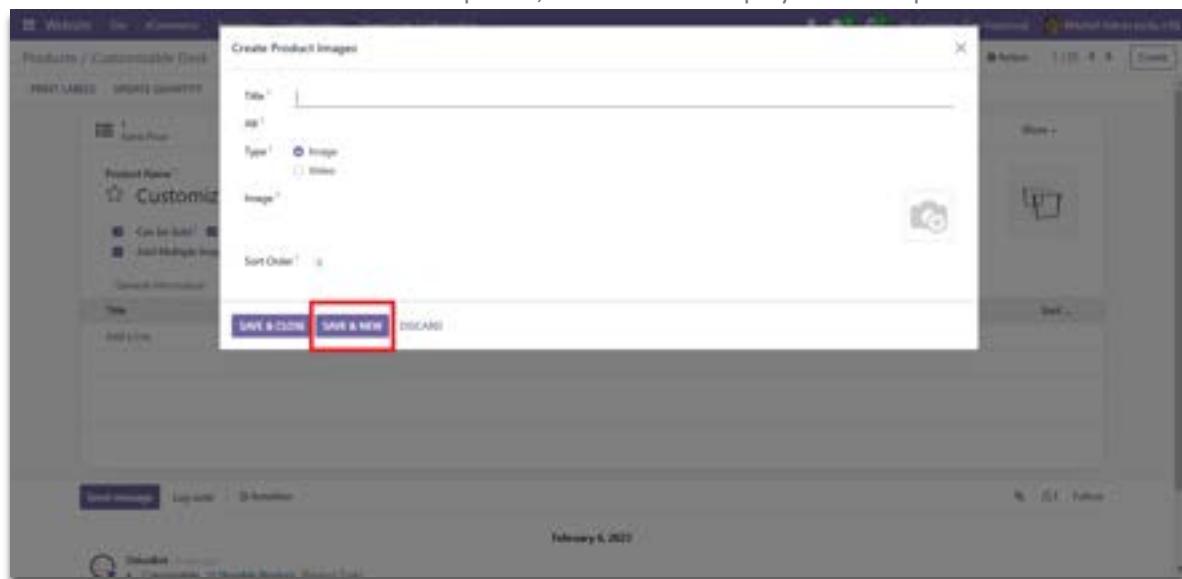

- You can display images of different colors and variant of a product on the Product details page.
- To display Multiple Images, you must insert multiple images during product creation, or you can add multiple images to an existing product by editing it. For that, go to Products -> Products.
- To Add Multiple Images to the Product:
 - Tick the 'Add Multiple Images?' checkbox.
 - Click on the 'Product Multiple Images' tab.

- Click on the 'Add a line' link to add images for the product.

- By clicking on 'Add a Line', you will be redirected to the "Create Product Image" pop-up.
- Give details like Title, Alt text, select Type, upload a relevant file (e.g. Image), and Sort order.
- The details which are inserted in Title & Alt options, those will be displayed on the product text.

- Click the Save & New button to create a new image. By clicking on Save & Close button, the details will be saved.
- Similarly, you can Add a Video related to that product. Select type of the video which can be 'YouTube Video', 'Vimeo Video', 'HTML 5 Video'.

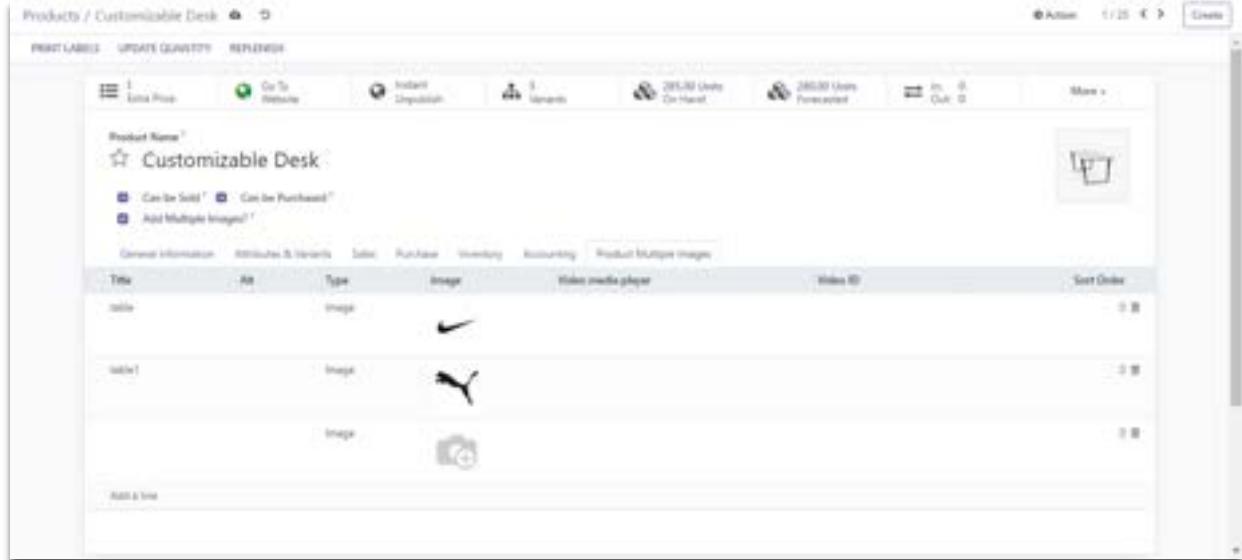

Note: In the Video ID text field, you must insert an ID of the video which is available end of the link.

<https://www.youtube.com/watch?v=ohV-nF-TYxM>

- Insert Video ID and then click on Save & New button to create a video file.
- By clicking on Save & Close button, the details will be saved.

- You can remove any image or video by clicking on the 'Delete' icon.
- Click on the Save button to save the multiple images with the configuration.
- Now by clicking on the Instant Publish button, the product immediately publishes on the web page.

Slider effects

Change thumbnail size

- After configuring the multiple images for a product, you can customize the Multiple Product image.
- For that go to **Menu** → **Settings** → **Website** → scroll down to the **Multiple Product Image customization** options.
- Here you will find the two options: **Slider Effects** & **Thumbnail Size**.

- You can enable the Slider Effects to the multiple images of the product on the Shop page.
- By enabling the Slider Effects, you will get below options:

Enable Text Panel: You can display the product's text details which are inserted during product configurations.

Slideshow Interval: Insert the seconds to give the interval between two images while playing the slideshow.

Thumbnails Panel Position: Set the Thumbnail panel **Left**, **Right**, and **Bottom**.

Thumbnail overlay effects: Set the Thumbnail panel effects **B/W**, **Sepia**, and **Blur**.

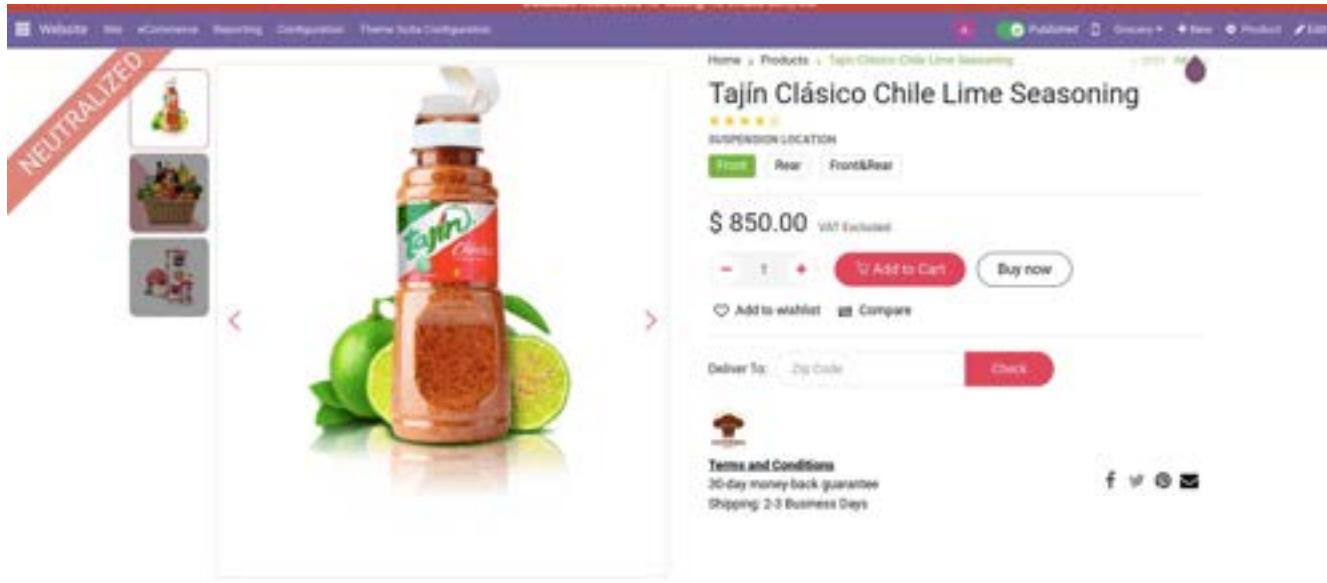

You can set the Thumbnail size by inserting height & width.

This is a detailed view of the 'Change thumbnail size' section from the previous screenshot. It contains two input fields:

- Thumb height**: Set to 88.
- Thumb width**: Set to 66.

Website view (Front End View)

- Go to the 'Shop' page. Click on any Product. You will find a Multiple image slider if you have added multiple images to the image gallery.

- As per Multiple Product image customization, you will get the Slider Effects option where you can play the slider, zoom in – out the image, and view the slider in Full page view.
- You can see the position of the Thumbnail panel and the size of the images in the thumbnail as per the backend customization.
- If you have enabled the 'Product Text' option, you will get the Product's text details as per inserted in the Product configuration.

Delivery Zipcode / New

Save **Discard**

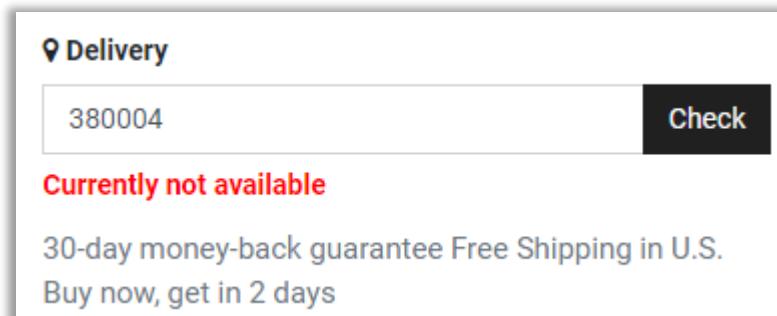

Zipcode	78704
---------	-------

- Insert a Zipcode and save it.

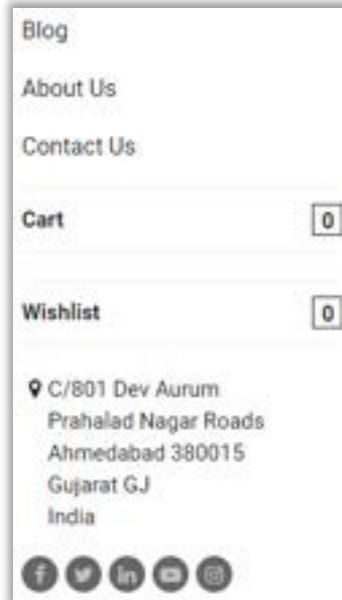

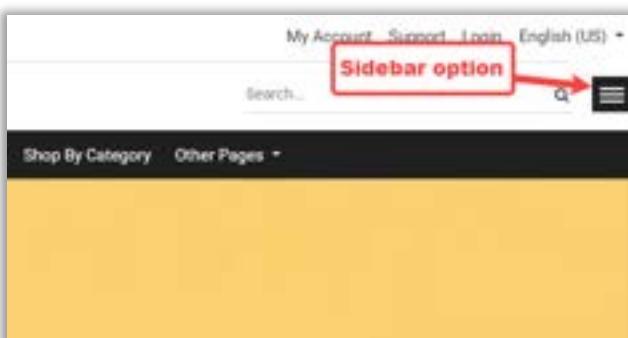

- Now navigating to the Product detail page, if a customer inserts the Zipcode which is already inserted in the Delivery Zipcode configuration, the product will be available to deliver to that region.

- If the delivery Zipcode is not inserted in the list, the message will be displayed as Currently not available.
- You can configure the “Zipcode details” like text caption and messages from Menu User & Companies Companies.

Header Sidebar Configuration

- You can configure the **Header Sidebar** options from Menu → Settings → User & Companies → Companies.

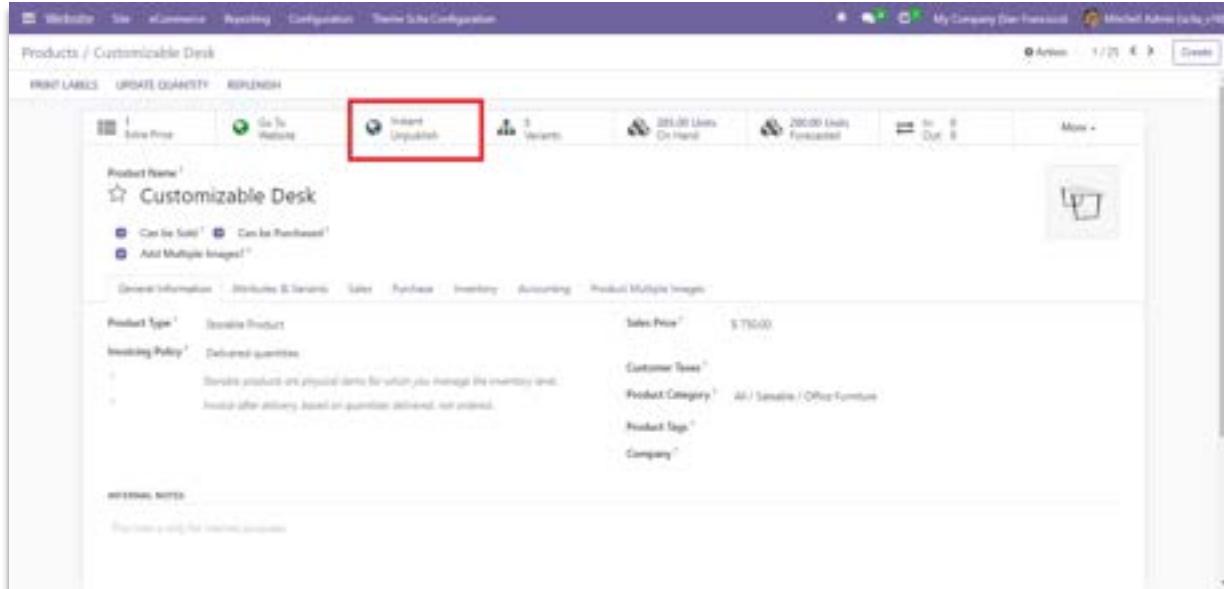

The screenshot shows the 'Companies / YourCompany' configuration page. At the top, there are 'Save' and 'Discard' buttons. The page is divided into several sections:

- General Information:** Fields for Address (Address 1: 250 Executive Park Blvd, Suite 3400, Street 2: San Francisco, California (US) 94134, United States), Tax ID, Company Registry, and Currency (USD).
- Header Sidebar Configuration (marked with 1):** Fields for Company Description (IT Consultancy), URL 1 Name (Blog), URL 1 Hyperlink (/blog), URL 2 Name (Contact Us), URL 2 Hyperlink (/contactus), URL 3 Name (About Us), and URL 3 Hyperlink (/aboutus).
- Delivery Zip Code Configuration (marked with 2):** Fields for Icon (fa fa-map-marker), Title (Delivery), Button Name (Check), Blank Validation Message (Please enter the zip code), Success Message (Available), and Fail Message (Currently not available).

- You can insert the URL and its hyperlink under the Header Sidebar Configuration.
- You can insert the details for the Delivery Zipcode option.

Instant Publish/Unpublish Product

- When you add/edit the products, you need to publish them by opening “Website” and clicking on Publish button.
- Now, you can Publish/Unpublish any product instantly after adding or editing it.
- Adding/Editing any product, you will find the Instant Publish/Unpublish option.

- You can also Publish/Unpublish the products by multiple selections.
- In the Products list, you can find the Instant Publish/Unpublish from the Action drop-down.

Shop by Category

- The “Shop By Category” menu is given to display the categories.
- By clicking on the “Shop By Category” menu, your customers will be redirected to the Categories page.

The screenshot shows a website's header and navigation bar. The header includes links for Website, Site, eCommerce, Reporting, Configuration, and Theme Setup Configuration. On the right side of the header are icons for My Website, News, and Edit. Below the header is a dark navigation bar with links for Home, Shop, Blog, Industry, and a highlighted 'Shop By Category' link, which is enclosed in a red box. To the right of the navigation bar are links for Extra Pages and Contact us. A placeholder text 'Lorem ipsum is placeholder text commonly used in the graphic' is visible above the main content area. The main content area features a title 'Our Categories' followed by four product categories: Bins, Boxes, Cabinets, and Desks. Each category has a representative image and a corresponding label below it. There are also two additional items shown without labels: a wooden cabinet and a blue sofa.

AMP: Accelerated Mobile Page

- Making the webpage as AMP (Accelerated Mobile Pages) helps the publishers to improve the speed and readability of their website. Theme Scita has Shop and Product detail AMP pages that will help you provide the best customer experience.

- In Theme Scita, you can enable the AMP from the backend. Go to: Website → Website → scroll to AMP Settings.
- The **Shop** and the **Product details** pages are with the AMP.

- When the customer searches the products related to your website from the Mobile, chances are your AMP page will rank higher than your competitor's normal CMS pages.

- If your web page is **AMP enabled**, you will get the AMP enabled icon.

Note: Due to AMP having some limitations, the MegaMenu of Theme Scita will not be supported under AMP.
